

**Dodge City/Ford County CFAB Advisory Board Meeting**  
**Dodge City Municipal Services Building, 100 Chaffin Rd.**  
**Monday, September 29, 2025**  
**6:30 P.M.**  
**Agenda**

**Welcome:** Chair Josh Roesener

**Roll Call:**

**Call to Order:** Chair Josh Roesener

**Visitors:**

1. (Limit of five minutes per individual and fifteen minutes per topic. Final action may be deferred until the next CFAB meeting unless an emergency does exist).

**Consent Calendar:**

1. Approval of Minutes-March 26, 2025, Meeting
2. "Why Not Dodge" Sales Tax Report- Report by Finance Director, Nicole May

**Reports:**

1. Dodge City Raceway Park Update - Report by Outlaw Productions, Operator/Promoter- Kyler Fetters
2. Proposed 2026 "Why Not Dodge" Capital Improvement Projects - Report by Director of Parks and Recreation, Daniel Cecil and Assistant City Manager, Melissa McCoy

**Unfinished Business:**

**New Business:**

3. Legends Park Building Painting Project- Report by Director of Parks and Recreation, Daniel Cecil
4. Athletic Field Maintenance (AFM) Department Vehicle Purchase - Report by Director of Parks and Recreation, Daniel Cecil
5. Athletic Field Maintenance (AFM) Department Snowplow- Report by Director of Parks and Recreation, Daniel Cecil

**Tentative Meeting Date(s):**

1. Tuesday, November 4, 2025
2. Tuesday, November 18, 2025

**Adjournment:**

**Dodge City/Ford County CFAB Advisory Board Meeting**  
**City Hall**  
**Wednesday, March 26, 2025**  
**6:30 P.M.**  
**Minutes**

**Welcome:** Chair Josh Roesener welcomed the board and introduced new CFAB board member, Alicia Edwards. In addition, Vice Chair Kristen Winter recognized Chair Josh Roesner for his award for the Out of Region on Air Personality of the Year, for the Texas Regional Radio and Music Awards.

**Roll Call:** Angela Unruh (Absent), Mike Laskowsky, Hugo Garcia, Kristen Winter, Josh Roesner, Lee Griffith, Alicia Edwards, County Commissioner Shawn Tasset, City Commissioner Rick Sowers, City Manager Nick Hernandez, and Assistant County Administrator Tanda Bartlett

**Call to Order:** Chair Josh Roesener

**Visitors:**

1. There were no visitor remarks.

**Consent Calendar:**

1. Approval of Minutes, January 31, 2025, Meeting:  
Kristen Winter made a motion to approve the minutes from January 31, 2024, and Hugo Garcia seconded. The motion passed 6-0.
2. “Why Not Dodge” Sales Tax Report- By Finance Director, Nicole May provided a report on the sales tax revenue/expenditures.

**Reports:**

- Dodge City Raceway - Report by Outlaw Productions, Operator/Promoter- Kyler Fetters. Mr. Fetters reported that the 2025 racing season was ready to kick off in ten days with his largest show of the year, the Kubota High Limit 410 Sprints. He provided a season overview which included diverse racing events. Fetters shared that there will be five more shows than last year, which includes more specialty shows. Kyler also mentioned that he will be offering a new opportunity to host live music after the races. In addition, he provided information on the restroom upgrades as well as a 65-foot flagpole that will be added which will make a great focal point at the track.
- Western Kansas Motorsports Museum Report by Western Kansas Motor Sports Museum Board. Joann Knight, Executive Director of the Dodge City/Ford County Development Corporation and Van Gemmill, long term racer and board member, presented a proposal to find a permanent home

for the Western Kansas Motorsports Museum, (WKMM) that has been in the Ford County Legacy Center in downtown Dodge City.

The WKMM board reported that their proposal is to build a new facility that will be privately funded and will showcase Dodge City's motor sports history. Renderings of the proposed facility were presented with a potential location at Dodge City Raceway Park near turn one. The first floor would be the museum and simulators for the public to experience racing firsthand. The second floor would be for events as well as interior suites for the racetrack similar to other amenities that top dirt tracks around the country offer. The suites for the raceway park would be a marketing tool for Racetrack to bring in larger attractions.

The organization's 501 C3 was approved on October 24, 2024, which will allow for tax deductible donations. Their funding goal is to raise \$2 million for the facility and \$700,000 has been raised to date. Joann Knight explained that they wanted to make a preliminary presentation to CFAB so that the board would be aware of the proposed project which if developed would require an agreement for the use of the land at the Raceway Park and possible assistance with grounds and building maintenance. If the project comes to fruition, it be brought back to CFAB and the joint City and County Commissions for approval.

- Long Branch Lagoon- Report by Director of Parks and Facilities, Daniel Cecil. Mr. Cecil reported that they are getting ready to kick off the 2025 season. Returning Aquatics Manager, Maureen Brown will oversee the Long Branch Lagoon along with 82 individuals as returning staff and 17 new hires to date. Each season the Long Branch Lagoon employees approximately 110 staff members. This year a new admissions and concessions supervisor has been hired and is also assisting at Legends Park with Concessions. In addition, the lifeguard and programming supervisors are both returning. Staff re-evaluated uniforms for this season and added new suits and shorts. Some new chairs and tables will be added to the facility as well. Improvements are being made to add five additional cameras to the existing system for improved coverage for safety. The City is in the process of hiring the new aquatics maintenance tech. The plan is to fill pools mid to late April and the new motors will soon be installed. Currently, there is a promotion for the Spring Pass Sale (SPS) sale for season passes along with punch passes. Prices for 2025 will remain the same. Daniel reported that he is currently working through logistics of third slide to bring back CFAB consideration in the future.
- Tournaments Report by Director of Parks and Recreation, Daniel Cecil. Daniel Cecil reported that the Tournament/Event Coordinator position

came open in 2024 and Jeff Banning was hired to serve in this position. Daniel explained that Jeff Banning still works with the City in the Engineering Department but is working under the City's dual employment program.

For the 2025 season there are currently eight youth tournaments which include four baseball and four softball tournaments. The first tournament will open April 11-13, 2025, with 56 teams. Team entry prices dropped slightly to encourage more teams to sign up. So far there are 141 baseball team entries for the various baseball tournaments throughout the season. The softball teams have a total of 39 teams registered. In addition, the umpire service will also be brought back in-house, which should result in a 15% to 20% decrease in umpire costs.

This season several projects were completed including painting the backstops, new carpeting in the Legends Park office and new internet at the facility through United Wireless.

### **Unfinished Business:**

1. There was no unfinished business

### **New Business:**

1. Approval of Legends Park Site Amenities (picnic tables, bench seating, trash receptacles and plant beds), Report by Director of Parks and Recreation Daniel Cecil. Cecil presented a staff recommendation for approval of the quote from Barco Products for \$26,294.90 for picnic tables, bench seats and trash receptacles. He also presented a recommendation for approval of the quote from Belson Outdoors for \$7,659.77 for handicap accessible picnic tables and flower planters for the complex. Cecil also explained that he had a possibility of a quantity discount to allow the opportunity to purchase additional furniture

Daniel Cecil shared that this is a budgeted expense through the capital improvement program. This project was previously recommended by the Dodge City Parks and Recreation Advisory Board.

Lee Griffith made a motion to approve with an amendment to purchase additional equipment if a volume discount is provided by the vendors. Mike Laskowsky seconded. The motion passed 6-0.

2. Approval of Cavalier Field Returf Project- Report by Director of Parks and Recreation Daniel Cecil. Mr. Cecil presented a recommendation for approving the proposal from Mid-America Sports Construction for the

installation of AstroTurf Diamond Series on the infield of Cavalier Field for \$335,575. He explained that the existing turf needed replaced following eleven full seasons of use on the existing infield turf. The project was budgeted through the Capital Improvement Project. Additionally, Dodge City Community College will contribute \$150,000 to the project in lieu of annual payments for field usage.

Hugo Garcia made a motion to approve the recommendation as presented, and Kristen Winter seconded the motion which passed 6-0.

**Tentative Next Meeting Date(s)**

Wednesday, May 21, 2025

Tuesday, September 23, 2025

Tuesday, November 4, 2025

**Adjournment:**

With no further business to be discussed the meeting was adjourned.

# Memorandum

**To:** CFAB Board Members

**From:** Daniel Cecil, Parks and Recreation Director

**Date:** September 29, 2025

**Subject:** Recommendation of Bid for the Legends Building Painting Project

**Agenda Item:** New Business

---

**Purpose:** To update the appearance and aesthetics of the buildings and the complex for future tournaments and use.

**Recommendation:** Staff recommends the approval of the bid from Cox Painting Inc. in the amount of \$33,360.00 for the painting of all buildings at Legends Ballpark.

**Background:** Legends Ballpark requires continued painting to maintain a clean, updated appearance for the many baseball and softball games hosted at the complex each year. On August 15, 2025, a Request for Proposals was issued for repainting the entry building, concessions building, restroom building, and all four press boxes. The project also includes painting eight handrails and replacing caulking around the base of each structure as needed.

On September 19, 2025, staff received one bid from Cox Painting to perform the requested services. The contractor recommended using Sherwin Williams Exterior Super Paint, an acrylic latex paint known for its resistance to fading, peeling, and mildew. Cox Painting confirmed that all requirements would be met including two coats of paint and the project would be completed by the end of January 2026, prior to the start of the Dodge City Community College softball season.

On September 23, 2025, the Parks and Recreation Advisory Board reviewed the proposal and recommended approval of the bid from Cox Painting.

**CFAB Board Options:**

1. Approve
2. Disapprove
3. Table for further discussion

**Financial Considerations:** This is a budgeted project. There is \$100,000 in the Capital Improvement Program for these upgrades in 2025.

Amount: \$33,360.00

Fund: 112

Dept: 52710

Expense Code: 441010

Budgeted Expense

Description	Total
<p>Exterior Buildings at Legends Park- Power wash, prepare, prime, and paint finish coats to two(2) center buildings, four(4) press boxes, and ticket entrance bldg. including: square block body, fourteen(14) metal doors and jams, window trim, all Steele beams, six(6) block pillars, three pillar walls at entrance, twenty(20) gutter down spouts, and field numbers 1 2 3 4 to be repainted. TWO colors to be determined.</p> <p>Prepare and paint two(2) coats to eight(8) ball field entrance railings with black oil based Industrial Enamel.</p> <p>Self Leveling Primer to be used as needed at base of buildings</p> <p>This job will require chemically friendly oxidation removal with pressure washing to ensure adhesion, careful preparation on bldgs including concrete and soffit protection before using spray equipment and brush and roller work.</p> <p>I recommend SW Pro Industrial Direct-to-Metal(DTM) (Satin) for all metal doors and Steele beams. I recommend SW Super Paint (satin) over Loxon because Loxon will most definitely fade faster and is not really needed on this particular job. Zinsser 123 is my recommendation for Primer</p> <p>References: Lynne Johnson- Boothill Museum 620-855-0043- Detail and restoration painting to Front Street and Hardesty House</p>	33,360.00

# Memorandum

**To:** CFAB Board Members

**From:** Daniel Cecil, Parks and Recreation Director

**Date:** September 29, 2025

**Subject:** Recommendation of the Purchase of two trucks for the Athletic Field Maintenance Department

**Agenda Item:** New Business

---

**Purpose:** To ensure the Athletic Field Maintenance (AFM) department has reliable transportation around Dodge City, keeping them functional and able to achieve their goals.

**Recommendation:** Staff recommends the approval of two bids from Lewis Chevrolet for one Chevrolet Silverado 1500 pickup in the amount of \$47,562.00 and one Chevrolet Silverado 3500 flatbed pickup in the amount of \$63,595.00. Total request for these purchases is \$111,157.00.

**Background:** The Athletic Field Maintenance (AFM) Department is in need of a new ½-ton pickup and a new one-ton pickup to support their daily operations. In May 2025, bids were accepted for the replacement of these vehicles. Two bids were received for the ½-ton truck and one bid for the one-ton truck. Lewis Chevrolet submitted the low bid for both vehicles.

The current ½-ton truck, a 2005 GMC, will be reassigned to the Parks Department for use by seasonal staff. The engine in the existing one-ton truck failed in January 2025, and the vehicle will be sold at auction.

The replacement 2026 ½-ton truck will be a four-door, 4WD with a seven-foot bed, allowing staff to efficiently transport crew members and equipment to job sites. The 2026 one-ton truck will be equipped with a dump bed that will be installed locally by BS Trailers in Dodge City. On July 8, 2025, the Parks and Recreation Advisory Board voted to recommend approval of these purchases.

**CFAB Board Options:**

1. Approve
2. Disapprove
3. Table for further discussion

**Financial Considerations:** This is a budgeted expense in the 2025 Capital Equipment Program with \$115,00.00 being budgeted for the purchases.

Amount: \$115,000

# Memorandum

**To:** CFAB Board Members

**From:** Daniel Cecil, Parks and Recreation Director

**Date:** September 29, 2025

**Subject:** Recommendation of Purchase of Snowplows for Athletic Field Maintenance Department

**Agenda Item:** New Business

---

**Purpose:** To furnish the equipment of the Athletic Field Maintenance (AFM) division with snowplows that allow them to properly keep roadways and parking lots accessible and safe.

**Recommendation:** Staff recommends the approval of the purchase of two Meyer 8'6" Super V3 snowplows with LED lights and curb guards in the amount of \$21,500, and one Metal Pless Inc. RubberMaxx 15' tractor blade in the amount of \$19,000. All items would be purchased from American Implement, for a total request of \$40,500.

**Background:** The Athletic Field Maintenance Division is responsible for clearing snow from parking lots and roadways at the old St. Mary's campus, as well as at United Wireless Arena, during inclement weather. Over the last two years, the division has purchased two new ¾-ton trucks that now require plow attachments.

The Meyer Super V3 snowplow has been used successfully in the past by the Parks Department on ¾-ton trucks and has been effective when used during snow events. The Metal Pless RubberMaxx Blade is a tractor-mounted snow blade featuring a rubber edge that swivels both vertically and horizontally. This design allows the blade to flex when encountering curbs or uneven surfaces, such as brick streets or pavers. The plow wings also provide directional control, enabling snow to be pushed to the side as needed.

These plows would be used primarily at the St. Mary's Sports Complex, the YMCA, United Wireless Arena, and other areas as needed. AFM currently has two plows that will be transferred to the Parks Department for their use. Bids for the truck plows were solicited from local vendors. On September 23, 2025, the Park and Recreation Advisory Board recommended the approval of these snowplows.

**CFAB Board Options:**

1. Approve
2. Disapprove
3. Table for further discussion

**Financial Considerations:** This is a budgeted purchase. \$45,000 is budgeted in the Capital Equipment Program for Snowplows in 2025.

Amount: \$40,500

Fund: 112

## Next Level Plowing

The Meyer Super-V3 brings next generation innovation to contractor-grade Vplows. Made for ¾-ton and larger trucks, it's engineered with features designed to move more snow, faster and with more control. With its pistol grip controller and independently controlled wings, you can choose from a V, scoop or straight blade configuration with push-button ease. The Super-V3 gives you safer nighttime plowing with its standard Nite Saber® LED lights and features industry-leading ground clearance for better stacking and less bottoming out. Made of carbon steel, hook it up, and change the way you plow forever.

## Performance

### V, As In Versatile

The all-new Super-V3 features industry-leading ground clearance that lets you stack snow higher with less chance of bottoming out. Offering unmatched versatility, this plow comes standard with LED lights and Meyer's exclusive one-button pistol grip controller and dual-acting locking cylinders giving you ultimate control, forward and back. The Super-V3 is here to take your capability to the next level.

### Meyer Super-V3 Plowing Video

# Reliability

## Engineered For Industry-Leading Reliability

Meyer is dedicated to bringing you products you know you can rely on. That's why Super-V3 plows are engineered and built with our Reliable Over-time Construction (ROC) system. ROC combines ongoing manufacturing improvements with state-of-the-art technology and stringent quality control procedures to deliver a more rugged and reliable product you and your business can count on.

▼ [READ MORE](#)

# Ease Of Use

## On & Off. Easy & Fast.

Keeping you on the job is Job One at Meyer. We've manufactured the Super-V3 to attach and detach in minutes with a simpler 2-plug electrical attachment. Once the Super-V3 is detached, your vehicle will have an off-the-assembly line appearance. And Meyer's free-standing jack stand allows you to adjust the V3's height on uneven or shifting surfaces, making on/off easy in any condition.

▼ **READ MORE**

# Fleet Friendly Operating System

The Super-V3 is fleet-friendly thanks to the Meyer Standard Operating System. You can interchange with straight moldboards and controllers in minutes giving you unlimited versatility within your fleet.

# RUBBERMAXX

Snowplow with rubber cutting edge. It can be installed with or without angulation. The **RUBBERMAXX** can be installed on agricultural loader "arms", skid steers, backhoes or on the front of a tractor with a Universal Subframe exclusive to Metal Pless.

Model	Available Edges	Blade Dimensions			Application	Approx. Weight
		Box	Height	Extended		
RBX 0626-11	<b>RB</b>	6'	26"	11'	40-60 HP	900 lb
RBX 0730-13	<b>RB</b>	7'	30"	13'	50-80 HP	1 350 lb
RBX 0736-14	<b>RB</b>	7'	36"	14'	60-90 HP	1 450 lb
RBX 0836-15	<b>RB</b>	8'	36"	15'	90-125 HP	1 550 lb

Specs, models and/or model numbers are subject to change.

## Possible configurations:

- Without angulation (**REVERSEMAXX**) includes DVDE2, 12 volts, 13 GPM.
- With angulation (**PLOWMAXX**) includes DVDE3, 12 volts, 13 GPM.
- With angulation and subframe (**AGRIMAXX**).

## Included:

- Angle and wing hydraulic systems (\*This feature is only available on certain models)
- Electric over hydraulic valves (\*This feature is only available on certain models)

## Blade Positions

## Options (Not included):

- Quick coupler
- Nitrogen accumulator package installed on the lift cylinder (AAC) (AgriMaxx)
- Non standard color (NSC1)
- 3 point hitch attachment (A3P)

The width of the blade does not determine the real dimension of the product. Pictures shown might have some options.

## WHY SWITCH TO RUBBERMAXX?

### #1 Non-Abrasive

Gentle on delicate surfaces like pavers and stamped concrete.

### #2 Robust

The rubber compound has a high degree of hardness and is made exclusively for Metal Pless.

### #3 Lasting

Lasts longer than Teflon. The rubber edge is flexible for increased life wear.

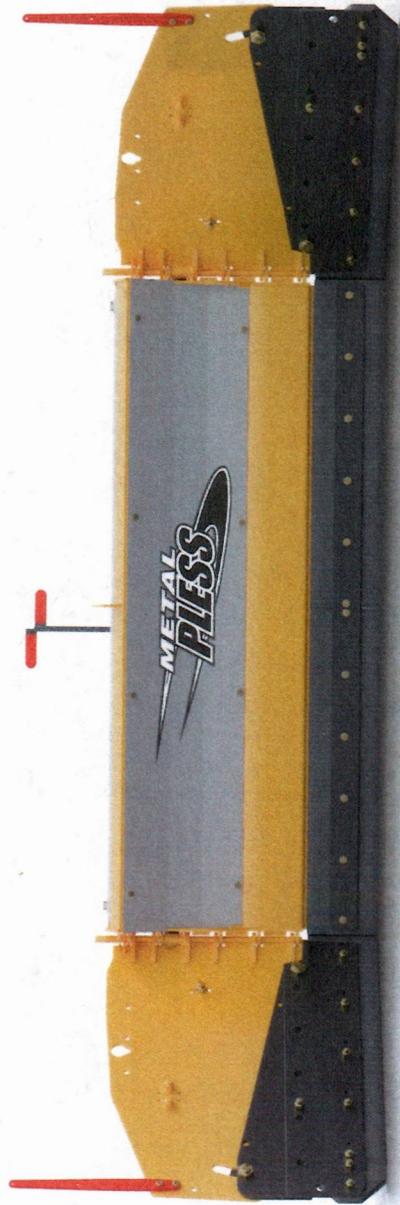

### #4 Versatility

All the features of a PLOWMAXX or AGRIMAXX.

## EXPERT OPINION

**"A MUST FOR DELICATE SURFACES. THE RUBBER EDGE WILL NOT DAMAGE PAVERS OR STAMPED CONCRETE.**

**THE RUBBERMAXX IS EQUIPPED WITH A HARD, LONG-LASTING RUBBER COMPOUND THAT WILL LAST MANY SEASONS, WHILE AT THE SAME TIME WILL CLEAN RIGHT DOWN TO THE SURFACE."**

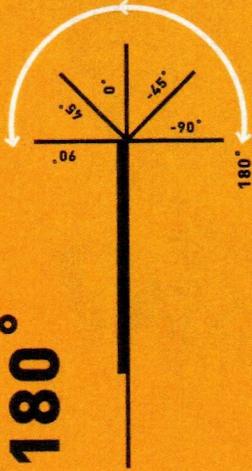

Not included:

- Hydraulic hoses and connectors from the blade to the vehicle

## HYDRAULIC WINGS

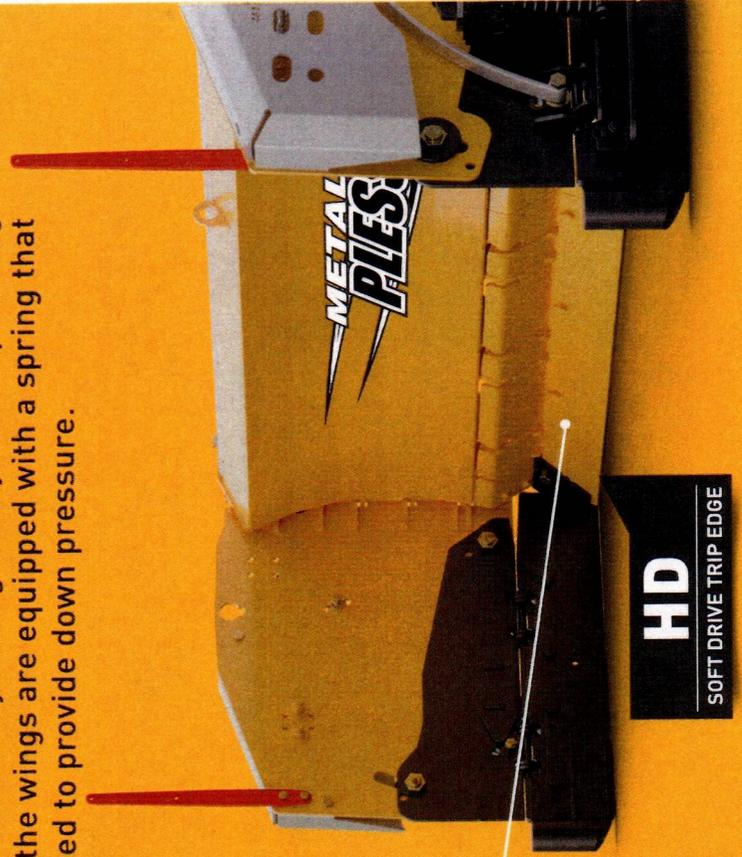

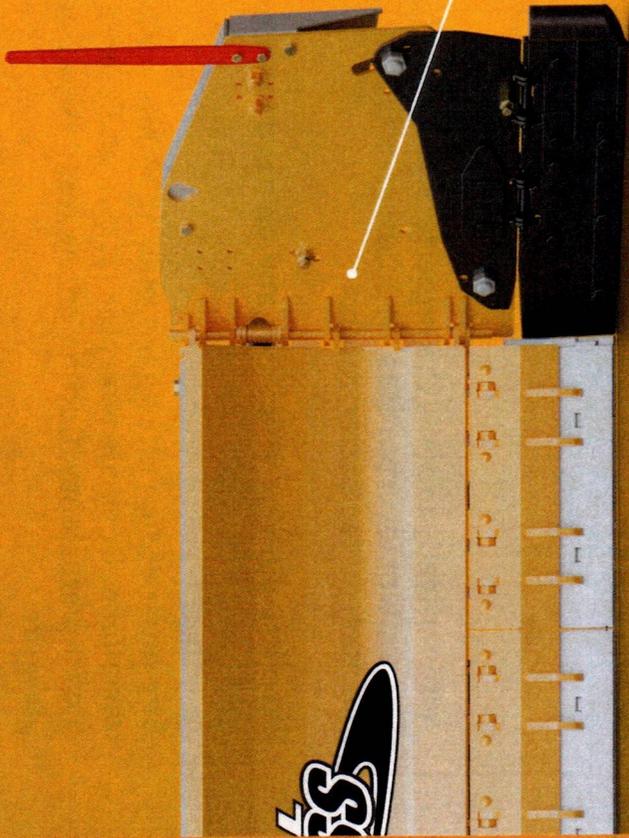

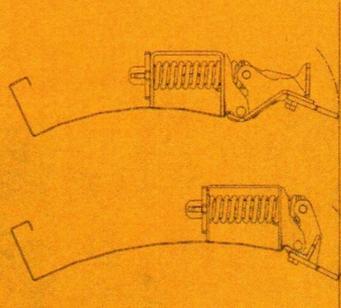

Our wings are constructed with CHT400 steel, making them the strongest in the industry. We use cylinders to move the wings, instead of actuators (hydraulic motors), offering superior holding strength. The leverage is increased by having two cylinders per wing. Additionally, the wings are equipped with a spring that can be adjusted to provide down pressure.

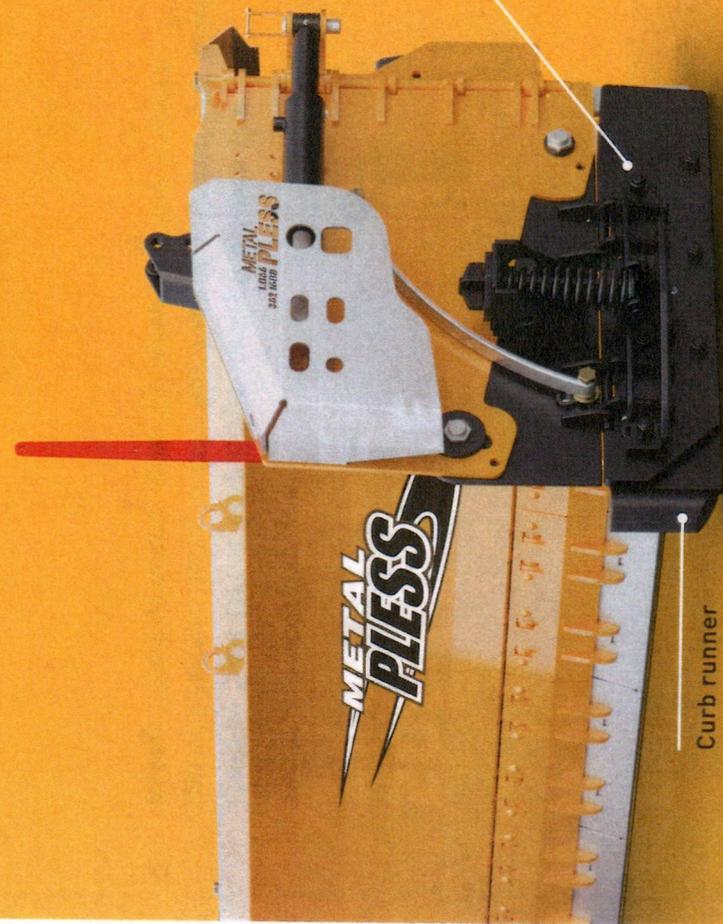

## SOFT DRIVE TRIP EDGE

Unique Soft Drive Trip Edge design allows the individual sections to trip backward without the blade being lifted upward, greatly reducing the impact.

HD

Curb runner

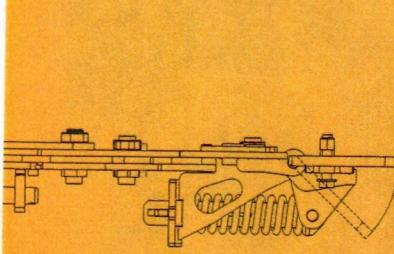

## LATERAL & VERTICAL FLOAT

Automatically follows the imperfections of the pavement. Our system incorporates an adjustable oscillating mechanism for better control.

Increase plowing efficiency and no need to go over the same area multiple times.

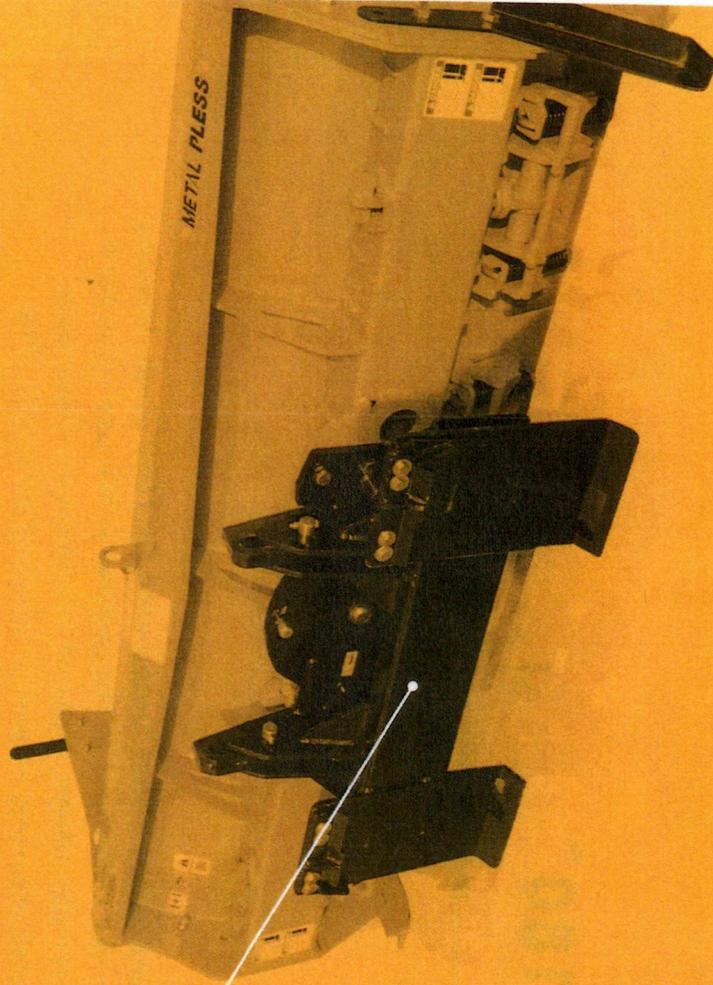

Slip hitch design allows the plow to follow surface variations. Reduces operator fatigue and increases plowing efficiency. Cutting edges wear evenly and prolong plow life.

## TRIP EDGE ON THE WINGS

Available on HD and LIVE EDGE models. The bottom part of the wing can trip if an obstacle is struck.

The cutting edge can trip without creating an impact on the motorized vehicle. Safer for the operator and reduces damage to equipment!

# LIVE EDGE PATENTED TECHNOLOGY

**FOLLOWS  
AND CONTOURS  
the imperfections  
of roadways**

## **METAL PLESS "LIVE EDGE" technology.**

Our cutting-edge technology allows our snowplow to adapt to effortlessly road and lot imperfections, ensuring complete surface contact for optimal cleaning.

This innovation accelerates surface clearing and enhances safety on roads and parking lots while significantly reducing the need for salt and abrasives.

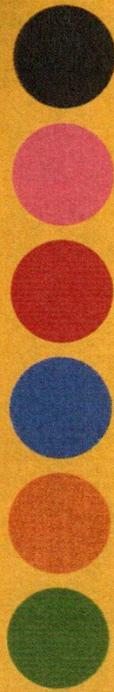

"LIVE EDGE" sets a new standard in advanced snowplow technology.

# MIX AND MATCH YOUR EQUIPMENT

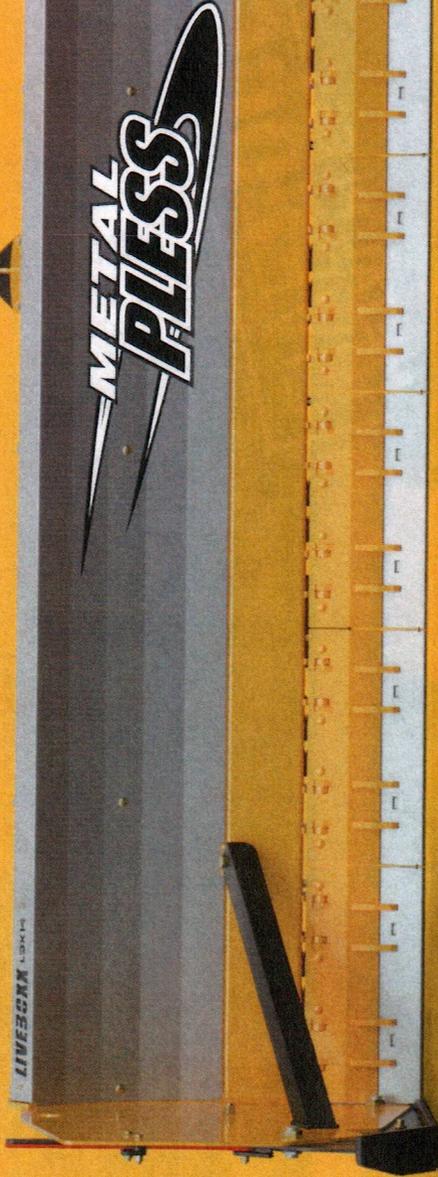

WITH OUR  
NON STANDARD  
COLORS

The powder coat process will help  
keep your plow looking great for  
years!

Equipment looks cleaner and  
keeps its resale value! Reduces  
maintenance.

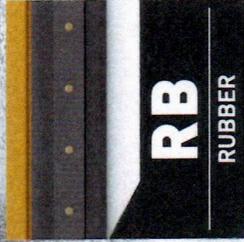

# I

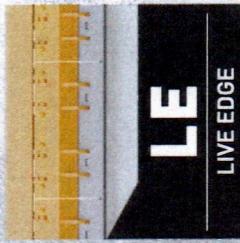

# IT'S ALL ABOUT THE EDGE

Standard trip edge allows cutting edge to trip back.

Rubber edges are flexible, tough, and quiet, and at same time less likely to damage delicate surfaces.

A floating soft drive steel trip edge with carbide inserts for longer wear life, that contours the unevenness of the ground for a cleaner result.

Individual floating rubber edge contouring the unevenness of the ground for a cleaner result while protecting delicate surfaces.

Unique Soft Drive trip edge design allows the individual sections to trip backward without the blade being lifted upward, greatly reducing the impact.

Inter-acting LIVE EDGE for hydraulic side wings. The serpentine-like movement allows the cutting edge to follow the surface being cleaned without risk of damaging the cutting edges or the area it is riding on.
