ORDINANCE NO. XXXX

AN ORDINANCE ESTABLISHING THE CITY OF DODGE CITY SMOKEFREE AIR ACT OF 2007; WITHIN THE CORPORATE LIMITS OF THE CITY OF DODGE CITY, KANSAS.

Sec. 1000. Title

This Ordinance shall be known as the City of Dodge City Smokefree Air Act of 2007.

Sec. 1001. Findings and Intent

The Governing Body of the City of Dodge City Kansas does hereby find that:

The 2006 U.S. Surgeon General's Report, *The Health Consequences of Involuntary Exposure to Tobacco Smoke*, has concluded that (1) secondhand smoke exposure causes disease and premature death in children and adults who do not smoke; (2) children exposed to secondhand smoke are at an increased risk for sudden infant death syndrome (SIDS), acute respiratory problems, ear infections, and asthma attacks, and that smoking by parents causes respiratory symptoms and slows lung growth in their children; (3) exposure of adults to secondhand smoke has immediate adverse effects on the cardiovascular system and causes coronary heart disease and lung cancer; (4) there is no risk-free level of exposure to secondhand smoke; (5) establishing smokefree workplaces is the only effective way to ensure that secondhand smoke exposure does not occur in the workplace, because ventilation and other air cleaning technologies cannot completely control for exposure of nonsmokers to secondhand smoke; and (6) evidence from peer-reviewed studies shows that smokefree policies and laws do not have an adverse economic impact on the hospitality industry. (U.S. Department of Health and Human Services. *The Health Consequences of Involuntary Exposure to Tobacco Smoke: A Report of the Surgeon General*. U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Office on Smoking and Health, 2006.)

Numerous studies have found that tobacco smoke is a major contributor to indoor air pollution, and that breathing secondhand smoke is a cause of disease in healthy nonsmokers, including heart disease, stroke, respiratory disease, and lung cancer. The National Cancer Institute determined in 1999 that secondhand smoke is responsible for the early deaths of approximately 53,000 Americans annually. (National Cancer Institute
(NCI), "Health effects of exposure to environmental tobacco smoke: the report of the California Environmental Protection Agency. Smoking and Tobacco Control Monograph 10," Bethesda, MD: National Institutes of Health, National Cancer Institute (NCI), August 1999.)

There is no safe level of exposure to secondhand smoke. (Environmental Protection Agency (EPA), "Respiratory health effects of passive smoking: lung cancer and other disorders, the report of the U.S. Environmental Protection Agency. Smoking and Tobacco Control Monograph 4," Bethesda, MD: National Institutes of Health, National Cancer Institute (NCI); Environmental Protection Agency (EPA), August 1993; California Environmental Protection Agency, "Health Effects of Exposure to Environmental Tobacco Smoke," 1997; California Air Resources Board, "Proposed identification of environmental tobacco smoke as a toxic air contaminant," Sacramento: California Environmental Protection Agency (Cal-EPA), Air Resources Board, Stationary Source Division, Air Quality Measures Branch, Office of Environmental Health Hazard Assessment (OEHHA), September 29, 2005.).

Secondhand smoke is particularly hazardous to elderly people, individuals with cardiovascular disease, and individuals with impaired respiratory function, including asthmatics and those with obstructive airway disease. (California Environmental Protection Agency (Cal EPA), "Health effects of exposure to environmental tobacco smoke", Tobacco Control 6(4): 346-353, Winter, 1997.) The Americans With Disabilities Act, which requires that disabled persons have access to public places and workplaces, deems impaired respiratory function to be a disability. (Daynard, R.A., "Environmental tobacco smoke and the Americans with Disabilities Act," Nonsmokers' Voice 15(1): 8-9.)

The U.S. Surgeon General has determined that the simple separation of smokers and nonsmokers within the same air space may reduce, but does not eliminate, the exposure of nonsmokers to secondhand smoke. (Department of Health and Human Services. The Health Consequences of Involuntary Smoking: A Report of the Surgeon General. Public Health Service, Centers for Disease Control, 1986.)

Numerous economic analyses examining restaurant and hotel receipts and controlling for economic variables have shown either no difference or a positive economic impact after enactment of laws requiring workplaces to be smokefree. Creation of smokefree workplaces is sound economic policy and provides the maximum level of employee health and safety. (Glantz, S.A. & Smith, L. The effect of ordinances requiring smokefree restaurants on restaurant sales in the United States. American Journal of Public Health, 87:1687-1693, 1997; Colman, R.; Urbonas, C.M., "The economic impact of smoke-free workplaces: an assessment for Nova Scotia, prepared for Tobacco Control Unit, Nova Scotia Department of Health," GPI Atlantic, September 2001.)

Hundreds of communities in the U.S., plus numerous states, including California, Delaware, Florida, Massachusetts, Montana, New Jersey, New York, and Washington, have enacted laws requiring workplaces, restaurants, bars, and other public places to be smokefree, as have numerous countries, including Ireland, New Zealand, Norway, Scotland, Sweden, Uganda, and Uruguay.

Accordingly, the Governing Body of the City of Dodge City finds and declares that the purposes of this ordinance are (1) to protect the public health and welfare by prohibiting smoking in public places and places of employment; and (2) to guarantee the right of nonsmokers to breathe smokefree air, and to recognize that the need to breathe smokefree air shall have priority over the desire to smoke.

Sec. 1002. Definitions

The following words and phrases, whenever used in this Ordinance, shall be construed as defined in this Section:

Subject: Proposed changes to the CVB Advisory Board

Attached is a draft copy of proposed By Laws and a draft proposed Resolution which
would make changes to the composition and responsibilities of the Convention and
Visitors Advisory Board. Currently the board has grown to a size that makes for a less
effective Board. In addition some venues are represented by more than one member
which leaves other areas unrepresented. We feel making these changes would make our
Board much more effective and representative.

The changes we are proposing include:

1-Boothill [Director preferred]
1-Chamber
1-Attraction
2-At Large [local businesses]
2-Hotel/Motel/Restaurant

Board Meeting Bi-monthly
Committee Meetings bi-monthly (alternating regular meeting months)

Eliminate the Ex-Officio titles

Staff member will be appointed as secretary

Yearly appointment [not elected] as chair and Vice Chair. These appointments would
rotate through board members. No two appointments would run consecutively.

Board meetings would include a budget report. The Board would not be involved in
setting neither budgets nor a plan for the budgeted dollars to be spent.

Prefer board term limits to 2 consecutive terms not to exceed 6 years.

Please feel free to contact me if you have any questions or need additional information.
