AG CMB Corporate Application (Rev. 12.27.19)
Memorandum

To: City Commission and City Manager  
From: Ernestor De La Rosa, Assistant City Manager/Legislative Affairs  
Date: Monday, June 7th, 2021  
Subject: Ordinance No. 3756- Special Events and Block Parties  
Agenda Item: Ordinances and Resolutions

Recommendation: Staff recommends approval of Ordinance No. 3756 establishing a City code for Special Events and Block Parties within the City of Dodge City.

Background: Currently the City of Dodge City does not have an ordinance or code establishing regulations and procedures regarding Special Events and Block Parties. During the last several years, the City administration has handled these requests through an administrative process, except for Dodge City Days special events. Ordinance No. 3756 establishes a process for all events and guidelines to improve management of these requests in our community.

Justification: Over the last year and during the beginning of the COVID-19 pandemic, our administration received multiple requests for special events, which made us realize a need for additional guidelines and a more structured process that effectively manages these requests, but most importantly allow for an enhanced communication within City Departments. This ordinance not only establishes a more robust structure for special events, but also a process for Block Parties. The ordinance also establishes an appeal process, which is a similar process used in other Kansas communities.

Financial Considerations: No financial liability for the City, but it continues to implement a fee schedule for these requests, which is comparable to nearby cities.

Purpose/Mission: Together we promote open communications with our community members to improve quality of life and preserve our heritage to foster a better future.

Legal Considerations: The City Attorney and multiple City Department Heads have reviewed and approved the proposed language as currently presented.

Attachments: Ordinance No. 3756
ORDINANCE NO. 3756

Memorandum

To: Nick Hernandez, City Manager and City Commission
From: Nicole May, Finance Director and Ryan Reid, Director of Administration
Date: June 3, 2021
Subject: ERP (Enterprise Resource Planning) Software
Agenda Item: New Business

Recommendation: In February 2021, an RFP was put out for Enterprise Resource Planning (ERP) software. We only received one bid. The bid was from Tyler Technology, and was for a five-year term. The bid was for Tyler Munis for general ledger, accounts payable, utility billing, payroll, HR, and Tyler Incode for court.

The cost breakdown is:

Tyler Munis
First year: $574,883 including one time fees of $362,610, annual fee of $167,063 and estimated travel for training of $45,210
Subsequent years: $167,063

Tyler Incode
First year: $99,896 including one time fees of $61,380 and annual fee of $38,516
Subsequent years: $38,516

Staff has researched the software and recommends the purchase from Tyler for both Munis and Incode. The above price includes training, support, data conversions, and project management.

Staff also viewed a demo for the Civic Services module of Tyler Munis but additional research is needed to determine if Tyler would be the best solution for that area.

Background: The City has been using Central Square’s Naviline product for ERP since 2002. It initially included finance, court, utility billing, fleet maintenance, and payroll. Since then we have added code enforcement, building permits, and mobile building permits as well. That software has served the City well but in more recent years support and innovation has dwindled. The new software will have several advantages over our current software including:

* Cloud based, with more mobile access
* Improved access by residents and employees to systems through portals
* Improved reporting for Administration, Finance, and Department Heads
*Improved use of digital documents (more paperless) and easier access to information

*More efficient data entry

*A fully supported platform with growth and innovation

*Improved security to protect against ransomware and other threats

*Modern system uses laser printers (improved bills) etc.

*Streamlined budget entry and creation should reduce reliance on spreadsheets

**"Evergreen" policy means software is designed for automatic and perpetual upgrades

*Easier to use, modern interface should make cross-training and increase City employee adoption of the system.

Tyler has 11,000 client locations and is the largest provider of software of this kind, with twenty year's experience. They have a 98% client retention rate. There are several Kansas cities that are currently using Tyler's software including Hays, Hutchinson, Leavenworth, Wichita, Winfield, and Salina.

Justification: The Tyler package will replace the Naviline package we currently have as well as some other software systems used for particular functions. We are currently budgeting $82,000 a year on Naviline as well as approximately $12,000 a year for other software systems that we will no longer need. We will also be able to save approximately $12,000 a year in hardware and software costs as a result of not needing to upgrade the current system.

Financial Considerations: The first year will be paid for from cash carryover from 2020 due to cuts made in the budget due to the unknown affects of the COVID pandemic. Subsequent years will be included in each departments operating budget for.

Memorandum

To: Nick Hernandez, City Manager and City Commissioners
From: Ray Slattery, PE, Director of Engineering Services
Date: May 27, 2021
Subject: Change Order #1, Ave. K RCB Replacement, SD 1701
Agenda Item: New Business

Recommendation: Approve Change Order #1 for the paving of Ave. K from Military Ave. to Wyatt Earp Blvd. for a total increase in the amount of $90,297.00. An additional 14 calendar days will be required for this work, depending upon weather.

Background: The Ave. K RCB Project was approved in August of 2019 the Commission approved the construction of this project. The start date was set for January 2020. When demolition started in January 2020, a major AT&T phone duct was found that was not located during the design phase. AT&T scheduled to move the duct, but due to their scheduling it was going to be a few weeks. Then the COVID shut down took place and AT&T did not do any work per their company policy. Once AT&T went back to work there was a backlog on all their projects. Once the duct was moved and out of the way, Building Solutions had moved on to other projects to keep their crews busy. Building Solutions was able to start back on the project earlier this year. However, the wet weather slowed the progress they could make. To date the only major item of work is to complete the south drainage flume. However wet weather has prevented this work from taking place. The section of Ave. K from Military Ave. to Wyatt Earp Blvd. was slated for a mill and inlay with the 2020 Asphalt Project. However during the project, it deteriorated to a point that it needs to be totally reconstructed. City staff requested a quote from Building Solutions to remove the existing asphalt pavement and replace the driving surface with concrete pavement. The quote also included replacing parts of the concrete panels of Wyatt Earp Blvd. at the Ave. K intersection because they are spalling at the toe line.

Justification: This change order will provide a new roadway on a street that is considered a local collector or the area. It will also reduce maintenance issues and costs of this section of the roadway for many future years.

Financial Considerations: Change Order #1 is for an increase of $90,297.00. Funding will be from the 2019 Series-A GOB. The Ave. K project is projected to be $50,000 under budget. There are also some funds remaining in the GOB because other projects came in under budget.

Purpose/Mission: The completion of this project aligns with the City’s Core Value of Ongoing Improvement and Safety.

Legal Considerations: By approving the Change Order from Building Solutions, LLC, the contract will be amended for both the dollar amount and number of calendar days.
