City Clerk
EXECUTIVE SUMMARY
2009 Budget
City of Dodge City

Submitted for the Governing Body’s approval is the 2009 operating and capital budget for the City of Dodge City for the fiscal year beginning January 1, 2009. The budget proposal represents the ongoing commitment to manage the delicate balance between funding essential operations, providing for infrastructure investment, and maintaining a stable tax levy.

The proposed budget was developed with three primary objectives.

1). Continuation of our commitment to maintaining and improving our service delivery, with an increased emphasis on the importance of human resources.

2). Continuing our efforts to fund the Capital Improvement Program, and Municipal Equipment Replacement Program in order to insure sound and viable City infrastructure, public works facilities, and overall service delivery capability.

3). Commit the resources needed to provide essential services for a growing community, as well as pursue achievable enhancements to programs and facilities that enhance quality of life for residents.

Budget Assumptions

During the budget preparation process we have made revenue forecasts based on national, state, and local economic trends, and state budget laws. Community needs, departmental program history, and general direction from the governing body were key factors used in projecting program costs for 2009. The budget as presented does not provide any increased services and may in fact result in a decrease in services. It represents the same programming as it did in 2008, and with the exception of scheduled salary increases, the same funding level.

Some assumptions used to develop this budget include:

1). Assessed Valuation of $122,514,627. This is a 1.1% decrease from 2008. In prior years, we had increases of 3%-5%. This plateau in the valuation is a common occurrence across the state of Kansas and primarily the result of the new machinery and equipment state abatement for industry.

2). Delinquent ad valorem tax at a rate of 5%

3). Implementation of the second phase of the Salary Survey. (This increase has been included in this draft budget).
4). Partially restore funding for the Capital Improvement Program

5). Funding the Municipal Equipment Replacement Program at the 65% level

6). Health Insurance premiums increased by 8%

7). Continued loss of demand transfer funds from the State of Kansas.

**Property Tax Funds**

The Funds reflected in this budget which are supported by property tax assessment include the General Fund, Special Liability Fund, Library and Library Employee Benefit Funds, Building Fund, Bond & Interest Fund and Capital Improvement Fund. All other funds are supported by Special Revenue or User Fees.

This budget is presented by fund, with the revenue being listed first and the expenditures listed next and summarized by category. Reports are available that lists all the line items included in each fund as well as detail of most of the line items.

**Revenue Projections**

The sales tax revenue projections for the 2008 and 2009 Budget reflect a 3% increase from 2007 to 2008 and a 7% increase from 2008 to 2009. This revenue source continues to be strong. Sales tax is one of the non-property tax funding sources that is of great importance to the City as it represents approximately 30% of the total revenue stream for the General Fund budget. For 2009 budget purposes the sales tax projection is at $4,256,727. (This does not include the Why Not Dodge sales tax which is dealt with separately).

Interest income had been gaining momentum over the past couple of years, but turned downward at the end of 2007 and into 2008.

The following graph provides an overview of the ‘General Fund Revenue Sources for the Budget Year 2007 (actual).
Cash Reserves

I have shown the Cash Reserve in the budget. It is titled Transferred to Capital. This amount reflects 14-15% of the budgeted expenditures for 2008.

Capital Improvement Program, Municipal Equipment Reserve Fund and Building Fund

Included in the 2009 Budget is the proposed Five-Year Capital Improvement Program. A revenue source for this program includes a $100,000 transfer from the General Fund.

The Municipal Equipment Reserve Fund is funded by the depreciation amount of the equipment (vehicles and other rolling equipment) in the general fund. This fund then supports the replacement or new equipment for departments in the general fund. The equipment in the other funds (Sales Tax Fund, Water, Sewer and Sanitation) are all listed in the Program, but funded in individual funds.

The Building Fund was started as a method to fund building projects. In the past this has funded payments for the City Hall, Golf Course Club House and the Depot. This fund has not yet had the opportunity to accumulate enough to fund future projects. There is nothing specifically proposed for 2009.

Health Insurance

The health insurance is currently placed with Trustmark and FiServ Health of Kansas continues to administer this health insurance plan. The 2009 budget shows an 8% increase. Initial projections are an approximate 10.5% increase with no changes to the health insurance plan. The total head insurance cost budgeted for 2009 is $2,310,489 compared to $2,076,346 in 2008.
Position Changes in the General Fund

A restructuring of some positions took place in 2008. As a result of these changes, there was an elimination of one position, the Development Services Director position. The Development Services previously had Planning and Zoning and Inspection in one department. Beginning in 2009, this will be separated into 2 departments, Inspection and Planning and Zoning. Mike Klein was previously the Director of Administration and was paid from the Utility Administration Fund. He is now the Superintendent of Public Works and paid from the Sanitation Department.

One of the findings of the Community Housing Assessment Report completed by Martin Shukert was a regional Community Housing Development Corporation, capable of developing housing or assembling partnerships in both Dodge City and rural towns. Towards this end, this budget includes a Housing Coordinator position listed in the Economic Development Department. Since the City’s infrastructure will both benefit and be impacted by additional housing, this budget proposes to finance $17,000 from each of the enterprise funds; Water, Wastewater, Sanitation and Drainage.

There are no other position changes included in this proposed budget.

Funding Considerations

The overall mill levy presented in the 2009 budget is 49.908 which is a 1.462 mill levy increase over 2008.

Salary Survey

The first phase of the Salary Survey that was completed by McGrath was implemented in 2008. The second phase is proposed to be implemented in 2009. The results of the increases from 2008 to 2009 are:

Street GO Bond Program

It is proposed to issue a small bond issue in 2008 of approximately $1,200,000. This bond issue is the result of earlier discussions with the Commission regarding the 2008 street program. The addition of a major bond issue in 2007 resulted in higher payments beginning in 2009. I would suggest that as additional revenues come in the future, the City Commission look at a dedicated source of revenue for the improvement of Streets.

Library

The allocation budgeted for the Dodge City Public Library is $844,195 for the general Library fund and $224,697 for the Library Employee Benefit Fund for a total of $1,068,892. The current mill levy cap for the Library is 5.2. A new mill levy cap will need to be approved by the City Commission.

Special Liability Fund

This funds the City’s insurance premiums. This includes Liability, property, workmen’s compensation, airport liability, and police liability.

Water and Wastewater Funds

The Water Fund budget reflects the operating costs for the distribution of water to the customers, payments of current bonds and some capital improvement projects.

The Wastewater Fund budget reflects the operating costs for the collection of the wastewater and taking that wastewater south of town to the wastewater treatment plant.

The bonds that are currently outstanding in the water fund is a GO Bond issue for improvements made in 1999. This fully matures in 2009. A GO Bond for improvements to the Wastewaster System was also issued in 1999. This also pays out in 2009. A revenue bond was issued for the improvements to the current wastewater treatment plant that included water wells and pumps in that area. These improvements were made in partnership with National Beef because of their expansion. As a result, National Beef pays 50% of the total bond payments for this project. The Water Fund is responsible for 30% of the remaining payment and the Wastewater Fund is responsible for 70% of the remaining payment.

Negotiations have begun for major improvements to both of these systems. The improvements are being made because of ongoing improvements to the current system as well as to accommodate the growth expected in the community because of the addition of a casino and special events center. These improvements will result in the issuance of bonds to fund these projects. We have been working with engineering consultants,
casino and special events center operators, financial advisors and bond counsels to secure the funding and to decide how best to structure this funding. At this time, there are no payments, nor any additional revenue included in this budget to fund these improvements. At the time more information is available, the budget will need to be amended.

Sales Tax Fund

The Sales Tax Fund funds the “Why Not Dodge” projects that were voted on in 1997. This budget is not yet complete as some of the budget information comes from the CFAB. The parts which are know (Athletic Field Maintenance) is included. The remainder is a work in progress.

Special Revenue Funds

There are several other funds listed that are not mentioned in this summary. As previously stated, all of the funds are shown separately and each revenue and expenditure source is listed.

The City Commission has met several times in work session to consider and work on this budget. The 2009 budget as presented was published on August 8th in the Dodge City Daily Globe, notifying the public of the public hearing. The public hearing is scheduled at the beginning of the meeting and approval of the 2009 budget is on the agenda as New Business.

HENNESSY HALL
LEASE AGREEMENT

This lease agreement is made and entered into by and between the City of Dodge City, Kansas a municipal corporation (LANDLORD), and Southwest Plains Regional Service Center, a Kansas not-for-profit corporation, (TENANT).

In consideration of the mutual promises and covenants of the parties as set forth herein, the LANDLORD and TENANT agree as follows:

1. LEASE PREMISES: The LANDLORD hereby leases to the TENANT part of that property known as Hennessy Hall, located on the former St. Mary's of the Plains College Campus in Dodge City, Kansas. Attached hereto as Exhibit A are the specifications of Hennessy Hall. That portion of the premises hereby leased to TENANT is outlined in red, comprising approximately two thousand seven hundred and ninety square feet (2,790). The outlined portion of Exhibit A, attached hereto and made a part hereof, is hereinafter collectively referred to as the “leased premises.”

2. TERM: The term of this lease shall be for a period of one (1) year commencing June 15, 2008, and terminating June 14, 2009, subject, however, to earlier termination as set forth herein.

3. LEASE RENTAL: During the first year of this lease, the TENANT shall pay to the LANDLORD annual rental in the amount of sixteen thousand seven hundred and forty dollars ($16,740.00), representing a square footage rental rate of approximately $6.00 per square foot, said annual amount to be paid in equal advance monthly installments of one thousand three hundred ninety-five dollars ($1,395.00), commencing on the first day of July, 2008, for 1st months rent and continuing monthly thereafter for the first year of this lease, said monthly rental being hereinafter referred to as the “base rent.”

4. ADDITIONAL RENT: It is agreed by the parties that, in addition to the base rent as set forth above, the tenant shall pay an amount representing the TENANT’S proportionate share of any increase in the LANDLORD’S cost for taxes and utilities as set forth in the formula below.

The parties understand and agree that, at the present time, the lease building facility is exempt from real estate taxes, and the parties anticipate the continued exemption of said facility during the term of this agreement; provided, however, that in the event the lease building facility in
which the leased premises are located is placed on the tax rolls, then the TENANT shall pay proportionate share of such real estate taxes as set forth below.

The TENANT'S proportionate share of any increases costs for taxes and utilities will be calculated on the following basis:

(a) If the combined expenses to the LANDLORD for real estate taxes and utilities (electricity, gas, trash, and water) for any year of the lease agreement are more than the taxes and utility costs for the base year, as defined below, then, in that event, the amount of the increase in such tax and utility expenses above the amount of the base year shall be proportioned to the tenant based on a percentage that the leased premises covered by this lease bears to the total usable space in the entire building. It is agreed that the leased premises covered by this lease is approximately one thousand (1,000) square feet, and the total usable space for the entire building is 38,000 square feet, and that the TENANT'S proportionate percentage of the total building space is 2.6%.

(b) To figure the rental adjustment, the dollar amount of increase in the combined real estate taxes and utility costs shall be multiplied by 2.6%, the TENANT'S proportionate share of the entire building. A resulting amount is then divided by 1,000 square feet and that amount shall then be added to the base rent per square foot rental figure for the coming lease year. It is agreed that in no event shall the annual per square foot rental figure be increased by more than $1.25 per square foot for any one year.

(c) The adjusted base rent figure, as provided above, shall be due and payable to the landlord in monthly installments commencing on July 1 of the following year, and on the first day of each month thereafter until the next rental adjustment.

(d) The “base year” shall be the taxes and utility costs attributable to the leased building facility for the calendar year 2008.

5. REPAIR AND MAINTENANCE: Throughout the term of this lease, the LANDLORD shall be responsible for the maintenance and repair of the roof, the exterior portions of all outside walls of the leased building facility and shall be responsible for repairs necessitated by structural defects of the building. In addition, the LANDLORD shall be responsible for repair and maintenance of all plumbing, sewer, lighting, electrical, and heating and air conditioning units. LANDLORD shall maintain all portions of the area adjoining the leased property including
sidewalks and parking lots in a clean and orderly condition free and clear of rubbish, snow, ice, and unlawful obstructions.

The TENANT shall be responsible for all interior maintenance of the leased premises, including but not limited to, cleaning, painting, and general upkeep and shall be responsible for the prompt repair of any damage to the leased premises caused by reason of its use of the same, including but not limited to, any damage or needed repairs to any plumbing and electrical facilities located with the leased premises.

The TENANT shall be responsible for repairs, maintenance, and replacement of any improvements or renovation made to the leased premises by the TENANT, including but not limited to telephone lines and equipment, computer wiring, and any special accommodations provided or installed by the TENANT.

6. SIGNAGE: The LANDLORD will provide a community sign identifying the property with a listing of the building tenants at a location near the entrance to the building. The TENANT will be responsible for any individual tenant signage it might desire, the style and location of which shall be subject to prior approval of the LANDLORD.

7. JANITORIAL SERVICES: The LANDLORD shall be responsible for providing janitorial services for the common areas of the leased building facility. The common areas shall consist of the foyer, stairs, and common hallways located outside the lease premises. The TENANT will be responsible for providing janitorial services to the leased premises.

8. TAXES: The LANDLORD shall pay all real estate taxes (including special assessments) on the leased building facility, if any. The TENANT shall pay all personal property taxes assessed against personal property owned by the TENANT and located in the leased premises.

9. USE: The TENANT shall use and occupy the leased premises for the operation of a business office. The TENANT shall not use or knowingly permit any part of the leased premises to be used for any other purpose, without the prior written consent of the LANDLORD.

10. TENANT RENOVATIONS: The tenant hereby acknowledges that it has had a reasonable opportunity to view and inspect the lease premises prior to the execution of this lease agreement, and hereby accepts said lease premises in its present condition. The TENANT further
acknowledges that no representation, statement or warranty, expressed or implied, has been made by or on behalf of the landlord as to the existing condition of the leased premises.

All renovations and remodeling desired by the TENANT will be at the sole expense of the TENANT and shall be performed in accordance with plans and specifications as prepared by the TENANT, subject, however, to the prior written approval of the LANDLORD, which approval shall not be unreasonably withheld.

TENANT further covenants and agrees to pay the entire cost of any work on the lease premises undertaken by the TENANT; to procure all necessary permits before undertaking such work; to do all such work in a good and workmanlike manner employing materials of good quality and complying with all governmental requirements. The TENANT further agrees to hold the LANDLORD harmless and indemnified from any injury, loss, claim, or damages to any person or property occasioned by or growing out of such work. The TENANT shall have the right to contest any claimed amounts or claims, arising out of any such work, and the TENANT shall discharge any lien, by bond, or otherwise, at its sole expense.

a) TERMINATION BY LANDLORD: In the event of the sale by the LANDLORD of the lease building facility which includes the lease premises to a third party, the LANDLORD shall have the option to terminate this lease agreement by providing written notice to the TENANT at least twelve months prior to the termination date.

b) CASUALTY INSURANCE: The LANDLORD agrees to keep the leased building facility insured for the benefit of the LANDLORD against loss of damage by fire and all casualties included in the broadest standard form obtainable of extended coverage or supplemental contract of endorsements. The TENANT shall have the responsibility to insure all of its interest in the fixtures, equipment, inventory, and other TENANT assets.

11. TENANT LIABILITY INSURANCE: The TENANT shall be responsible for and shall provide total and complete liability insurance in the amount of at least $500,000 that will save and protect the LANDLORD from any and all claims or demands of any kind or character which may arise or claims to arise against the LANDLORD by reason of the use of leased premises by the TENANT, and the LANDLORD shall be named as an additional insured on such policies.

It is further agreed that the TENANT shall save and hold harmless the LANDLORD from any and all claims, causes of action or losses which may be asserted against the LANDLORD by
reason of the TENANT’S use of the leased premises under the terms and conditions of this lease and will further indemnify the LANDLORD for its attorney’s fees and other costs, losses or expenses incurred by the LANDLORD in defending against any such claims or causes of action.

12. DESTRUCTION: In the event the leased premises, or any part thereof, be partially destroyed by an act of god, the elements, fire, or other cause covered by insurance carried by the landlord, the LANDLORD, using such insurance proceeds, shall proceed immediately with due diligence to repair, restore, and to replace said lease premises to as good a condition as it was in prior to such damage or destruction. The LANDLORD’S responsibility in this respect should be limited to the amount of insurance proceeds received by the LANDLORD because of the damage or destruction. A just and proportionate part of the monthly rental payments shall be suspended or proportionately abated in accordance with use until the lease premises is put in complete repair. If the lease premises shall, at any time during the life of this lease or an extension thereof, be substantially damaged or destroyed by causes not covered by insurance, this lease agreement shall be subject to cancellation at the option of the LANDLORD by giving TENANT written notice of cancellation within twenty (20) days after the date of such damage or destruction. All rent paid in advance, if any, by the TENANT, that is actually unearned at the date of the damage or destruction, shall be refunded forthwith to the TENANT. If no notice of cancellation is given as aforesaid, or if the leased premises are not substantially damaged or destroyed, this lease shall remain in full force and effect, and the LANDLORD shall proceed immediately with due diligence to repair, restore, and replace the lease premises to as good a condition as they were in immediately prior to the damage or destruction. It is expressly agreed that TENANT’S obligation to pay rent hereunder shall abate during the period of LANDLORD’S repair or reconstruction of the premises pursuant to the term of this paragraph; to the extent the premises are untenable.

13. UTILITIES: LANDLORD shall be responsible for the payment of utilities, including water, sewer, trash removal, gas, and electricity for the lease premises.

14. ASSIGNMENT BY TENANT: The TENANT shall not assign this lease nor sublet or permit the leased premises or any part thereof to be used by any others, without the prior written consent of the LANDLORD in each such incident. The written consent of the LANDLORD to
an assignment or subletting shall not be construed to relieve the TENANT from obtaining the consent in writing of the LANDLORD to any further assignment or subletting.

15. ASSIGNMENT BY LANDLORD: The LANDLORD shall have the right to assign this lease to another person or entity at any time without approval of the TENANT; provided, however, any such assignment shall not relieve the LANDLORD and its assignee of any obligations incumbent upon it under the provisions of this lease, and the same shall be binding on the LANDLORD's assignee.

16. RULES AND REGULATIONS: The LANDLORD reserves the right to promulgate rules and regulations concerning occupancy of the building of which the leased premises are a part. These rules and regulations shall be in writing and will take effect immediately after notice has been given by serving a copy of the rules and regulations upon the TENANT.

17. NOTICES: Any notice under this lease must be in writing and must be sent by registered or certified mail to the last address of the party to whom the notice is to be given, as designated by the party in writing. The LANDLORD hereby designates its address as CITY HALL, 806 2nd Avenue, PO Box 880, Dodge City, Kansas 67801. The TENANT hereby designates its address as Southwest Plains Regional Service Center USD 626, Box 1010, Sublette, KS 67877.

18. BINDER: This agreement shall be binding on the parties hereto and their respective successors and assigns.

IN WITNESS WHEREOF, the parties have hereunto set their hands in the day and year written below.

MEMO

TO: Cherise Tieben, Assistant City Manager

FROM: Nannette Pogue, Finance Director/City Clerk

SUBJECT: Final Costs for Sewer Extension Project for Happy Homes II and Ranchwood Estates

At the beginning of the Meeting on Monday night, there is an agenda item that is a Public Hearing regarding a CDBG Grant that was granted for the Sewer Extension Project for Happy Homes II and Ranchwood Estates. In October of 2005, the City Commission passed a Resolution finding it necessary to extend Sewer to these two locations in the East part of Dodge City. The project was to be paid approximately 50% by a CDBG grant, 30% by the development area and 20% by the City at Large. The portion to be paid by the development area will be paid back to the City through Special Assessments. In order to accomplish the special assessment process, it is necessary to accept the final costs of the project, set the assessment amounts to the properties, set a public hearing for the next City Commission meeting which is September 2, 2008 and direct the City Clerk to send notices to the property owners notifying them of the public hearing and the amount of the assessments.

The two owners of the properties which this project serves petitioned this work to be done. While one of the properties has changed ownership since the project began in 2005, we have worked with all of the owners to complete this project.

Attached you will find Exhibit A which outlines the final cost of the project, Exhibit B which is the Assessment Roll Certification; Exhibit C which is the notice of public hearing which will be published in the Dodge City Daily Globe and Exhibit D which is the notice to be sent to the property owners.

The project has been successfully completed and I would recommend that the City commission approve these documents and set a public hearing for September 2, to hear any comments regarding the special assessments.

If you have any questions or wish additional information, please let me know.
