Memorandum

To: Nick Hernandez, City Manager and City Commissioners
From: Nathan Littrell, Planning & Zoning Administrator
Date: August 15, 2022
Subject: Ord. No. 3778
Agenda Item: Ordinances and Resolutions

Purpose: This rezoning ordinance will allow for the property to be rezoned from AG Agricultural to R-1 Residential Low Density. The proposed development will consist of 100 single-family homes.

Recommendation: It is City Staff’s recommendation to approve this ordinance. On August 9, 2022, the Planning Commission reviewed and voted 4-0 to recommend approval of the proposed rezoning.

Background: The applicant wishes to rezone this property to allow for single-family residential development. The City had originally purchased this property when acquiring land for the North Water Reclamation Facility. This portion of the property was then sold to Volz Builders with the intent of residential development. This is the first phase of a proposed multi-phase development. The property is bordered by 6th Ave. in the East and Iron Rd. on the South. Iron Rd. has been completed from Ave. A to 6th Ave. and is currently under construction from 6th Ave. to 14th Ave. 6th Ave. North of Iron Rd. is planned to be constructed at a later date. The Iron Flats Phase I plat was adopted by the City Commission on July 18, 2022. All platted lots meet or exceed the minimum requirements for R-1 Residential.

City Commission Options:
1. Approve
2. Disapprove
3. Table for further discussion

Financial Considerations: This development is planned to be part of a Rural Housing Incentive District (RHID).

Legal Considerations: None

Mission/Values: Approving this rezoning ordinance will encourage and support growth and development in our community.

From: Nickolaus Hernandez, City Manager  
Date: August 15, 2022  
Subject: Street Sales Tax Question  
Agenda Item: Resolution No. 2022-30

Recommendation: Discussion and Commission recommendation on

A RESOLUTION AUTHORIZING AND PROVIDING FOR THE CALLING OF A SPECIAL QUESTION ELECTION IN THE CITY OF DODGE CITY, KANSAS, FOR THE PURPOSE OF SUBMITTING TO THE ELECTORS OF THE CITY THE QUESTION OF IMPOSING A ONE-HALF PERCENT (0.50%) CITY-WIDE RETAILERS' SALES TAX; AND PROVIDING FOR THE GIVING OF NOTICE OF SAID ELECTION.

Shall the following be adopted?

Shall the City of Dodge City, Kansas, be authorized to impose a one-half percent (0.50%) City-wide retailers’ sales tax, the proceeds of which shall be used for the purposes of providing property tax relief and paying the costs of street improvements and associated utilities of the City; with the collection of the sales tax to commence on April 1, 2023, or as soon thereafter as permitted by law; all pursuant to the provisions of K.S.A. 12-187 et seq., as amended?

Background:
A couple months ago the Commission tasked staff with redeveloping the previous sales tax question for consideration during the upcoming election. This tax would begin April 1, 2023. Our current street maintenance budget is approximately $300 to $500,000 per year that is funded from the special gas tax. The City does however issue an additional $1 Million to $1.5 Million in debt for non RHID street related projects funded, which equates to approximately 5.5 to 8.5 mills. This sales tax could allow for up to $5 + million in street funding or it could provide at minimum stabilize, but more than likely would provide a modest mill levy reduction by eliminating a portion of our issued debt paid for by property tax revenues.
Justification:
30% of our sales tax dollars come from individuals from outside of our City and currently all funding is
dependent upon property tax primarily. There is no dedicated revenue source outside of the gas tax,
and debt issuance paid through the mill levy.

We believe it will be necessary to preserve the City’s bonding capacity for future RHID projects.

The list of large modernization/expansion & reconstruction projects for collectors and arterials is lengthy
and we estimate needing to allocate $2 million/year to meet the future needs of our growing
community.

To improve the quality of our asphalt streets and chip away deferred maintenance projects we will need
to invest at least $2 million per year.

Financial Considerations: The current sales tax rate in Dodge City is 8.5%. This ½ cent sales tax, if
approved by the voters is expected to generate $5+ million in additional revenue per year dedicated
solely to our street program. To generate the equivalent revenue through property tax the mill levy
would have to increase 30 mills.

Purpose/Mission: Safety: Together we endeavor to provide a safe and secure workplace and
community. Ongoing Improvement: Together we value progress, growth, and new possibilities by
providing and preparing for the community’s future.

Legal Considerations: The documentation has been prepared and reviewed by Gilmore and Bell.

Subject: Downtown Streetscape Project

**Purpose:** Building Solutions, the Construction Manager at Risk, will present the guaranteed maximum cost and phases for the Downtown Dodge City Streetscape Project for the Commission’s consideration.

**Recommendation:** Approve the funds needed to complete all phases of the project in addition to current grant and STAR Bond Funds available for the project.

**Background:** The revitalization of Dodge City's historic downtown is an essential part of the Dodge City STAR Bond project. The 50-year-old streetscape and the 100-plus year-old brick streets and utilities are well beyond their useful life and it shows to residents and visitors alike. The Downtown has been a regional and international draw, but its current condition has hampered economic development and tourism. In addition, with the recent expansion of Boot Hill Museum, Dodge City is seeing an influx of visitors but unfortunately the downtown is not meeting the expectations of visitors or Dodgecitians.

The community, including downtown businesses have been engaged throughout the project and provided feedback through an online survey in both English and Spanish as well as stakeholder and community engagement sessions. The public response to the downtown streetscape project has been overwhelmingly positive and in the Dodge City 2030, Comprehensive Plan, Planning for tomorrow, 92% of the public said strengthening the downtown was important to them and 91% said the City should be involved in revitalizing the downtown.

**The Phases of the Streetscape project include:**
- Front Street-Central Avenue to 3rd Avenue
- Central from Wyatt Earp to Vine Street
- 2nd Ave. from Wyatt Earp to Gunsmoke
- 3rd Avenue from Wyatt Earp to Gunsmoke
- 1st Ave. from Wyatt Earp to Gunsmoke

**City Commission Options:**
1. Approve funds needed to complete all phases of the project.
2. Approve funds needed to complete a portion of the project.
3. Disapprove and re-evaluate project.
4. Table for further discussion and approval at the August 15 City Commission meeting.

Date: August 11, 2022
Subject: Comanche Street Reconstruction (14th Ave. to Walmart Drive), ST2105
Agenda Item: New Business

Purpose: This waterline replacement along Comanche Street will help insure the longevity of the new concrete pavement.

Recommendation: Approve the quote from Building Solutions, LLC in the amount of $232,314.00 to replace the shallow 12” water main along Comanche Street.

Background: The City is currently reconstructing a 1,055 ft section of West Comanche Street. This project is being constructed by Building Solutions. The street section sees heavy commercial traffic and is classified as a major collector. For this reason, the existing asphalt pavement is getting replaced with concrete.

The initial scope of this project was to remove and replace the road surface with 9” concrete, leaving a majority of the existing curb & gutter intact. The removal of the existing asphalt was being complete via milling, as per specifications. During this milling operation the weight of the milling machine broke a service line tap on the existing 12” water main. The main was shut down for an emergency repair. While in the process of repairing the break, it was discovered that the main only had 18” of cover from the road surface to the top of the pipe. Our City specification for depth of a water main is a minimum of 4 ft. The repair to the tap was completed but shortly after it was pressured back up, the main broke in two additional spots adjacent to the repair. Following this incident, we were able to get a better look at the existing condition of the 12” main and it was in very poor condition. The condition and depth of the main raised concerns about placing new pavement without addressing the issue. Replacement of this main was not included in the design of the street reconstruction in large part to the water department not previously having breaks or leaks on the main.

City staff quickly put a plan together to replace the 12” main with a 16”. The replacement of this 12” main the full length of the current street reconstruction would position the City to extend the new larger main to the west in the future. The quote from Building Solutions to replace the existing main came back at $232,314.00. This quote is about $56,000, or 32% more than estimated. This price discrepancy is due in large part to the cost of the 16” C900 water pipe and associated valves and fittings.

City Commission Options:
1. Approve Quote
2. Disapprove
3. Table for further discussion

Financial Considerations:
Amount $: 232,314.00

Fund: 51041000   Dept: Water   Expense Code: 442008

__ Budgeted Expense   __Grant   __ Bonds   _X_ Other

Legal Considerations: The City will be entering into a contract with Building Solutions, LLC and will be bound by the provisions of this contract.

Mission/Values: Approving this quote for water line replacement aligns with the City’s Core Values of Working Towards Excellence and Ongoing Improvement.
