Reconstruction – BHC Contract

Agenda Item: Consent Calendar

**Recommendation:** Approve amendment as submitted by BHC Rhoades.

**Background:** BHC original contract was brought to the commission for approval January 4, 2010. The original contract services were to be completed by July 30, 2010. However, the commission tabled the approval of the contract and did not approve the agreement until the April 5, 2010 Commission Meeting.

**Justification:** Because of the delayed approval, BHC was unable to start the project as originally planned. Therefore they are requesting an extension of time to complete the scope of services. The amendment extends the completion time until October 30, 2010.

**Financial Considerations:** There are no costs associated with this amendment.

**Purpose/Mission:** Completion of this project will enhance this corridor and will attract new business to area. Allowing the consultant adequate time to complete the service is an important part of the whole process.

**Legal Considerations:** None

Re: Amendment to Agreement – Schedule
Comanche Street Extension ST0904

Dear Mr. Finley,

This amendment is intended to modify the current executed agreement (signed by City on April 5th, 2010) to reflect the current anticipated schedule for professional services. The agreement states in Attachment A (Page 9) that the services listed in the contract were anticipated to be completed by July 30, 2010. This estimated completion date was based on the assumption that the City would issue a notice to proceed within a few weeks of our forwarding it to the City for consideration in December 2009. Based on the date that the contract was actually executed by the City, we are requesting that the estimated completion schedule be amended to October 30th, 2010. As stated in the original agreement the actual completion schedule may vary due to input and reviews by the City, as well as other project stakeholders.

No other changes to the agreement are proposed as part of this amendment, and all other terms and conditions remain fully in effect.

Your signature below will serve as your acknowledgement of our agreement; we would appreciate your signing one copy of this amendment and returning it to us.

Sincerely,

Memorandum

To: Ken Sirobel, City Manager  
    Cherise Tieben, Assistant City Manager

From: Nannette Pogue

Date: May 14, 2010

Subject: Resolution No. 2010-18
Agenda Item: Ordinances and Resolutions

Recommendation: I recommend the approval of Resolution No. 2010-18

Background: We have been looking at the anticipated revenue needed to fund the north water reclamation facility. Initially, we were anticipating some possible grants from the federal or state government to supplement local revenue. To this point, we have not been successful in securing any federal or state funds. We will need to increase rates to secure the revenue to pay off the debt to fund the water reclamation facility.

Justification: Annually, we review the operational and capital costs of the utility funds. Based on this review, we increase the rates by at least an amount equal to the increase in the CPI. This year we are aware that the rates we currently collect for the Wastewater Treatment System will not be adequate to pay the debt for the new plant.

Financial Considerations: This resolution increases the Monthly Service Charge by $3.00 from $5.45 to $8.45 and the charge per 1,000 gallons by 2% from 1.92 per thousand gallons to 1.96 per thousand gallons. This increase will bring in approximately an additional $600,000 per year. The monthly payments for the new plant will not begin for 18 months. This increase won’t be adequate to fund the payments, but it will give us an opportunity to assess the increase in new development and the revenues it will potentially bring in. Then, in 2011, we will propose an additional increase.

To an average residential customer using 6,000 gallons of wastewater per month, the increase per month will be $3.24.

Purpose/Mission: Ensure financial stability in the Wastewater Treatment Fund so that we can adequately provide for the community’s future growth and improvement.

Legal Considerations: None

- Monthly service charge: $8.45
- Monthly volume charge: $1.96
- Monthly 5 day BOD charge per lb: $0.1053
- Monthly TDS charge, per lb: $0.0647

The calculation of the strength charges for BOD and TDS shall be made as follows:

\[ SBOD = Vs \times 8.34 \times CBOD \times BOD \]

\[ STDS = Vs \times 8.34 \times CTDS \times TDS \]

\[ ST = SBOD + STDS \]

Where:
- \( SBOD \) shall be the strength charge attributable to 5 day biochemical demand
- \( STDS \) shall be the strength charge attributable to the Total Dissolved Solids
- \( Vs \) shall be the wastewater volume in million gallons
- 8.34 shall be the weight of water, pounds per gallon
CBOD shall be the unit charge for 5 day Biochemical Oxygen Demand in dollars per pound

3.0 OTHER TYPES OF CONTRIBUTORS

Any person desiring to use the wastewater treatment system by transporting liquid matter to said system by a means other than through the sewer system may do so if the quantity, quality, type, and character of the liquid waste to be deposited in the system is of a type permitted under the laws of the City, and consists solely of organic or biodegradable waste from septic tanks and cesspools.

Such fees shall be based on two factors, a flat fee designed to pay for testing and the cost of administration and billing and a volume charge.

To simplify the administration and accounting for the material dumped, the volume charge will be based on the total volume of the tank used, rather than a measurement of the actual volume of material in the tank. The OMI staff has the right to measure any tank to determine the volume if there is any question about the reported volume.

The septage disposal fee shall be as follows:

| Flat fee for administration and testing | $33.25 |
| Volume charge                           | $0.1425 per gallon |

4.0 EXTRA MONITORING FOR HIGH STRENGTH WASTES

When regulations require monitoring of wastewater from any user, whether for extra strength or for high discharges, that user shall pay a monitoring charge consisting of all costs for personnel,
materials and equipment necessary to collect and analyze samples of the wastewater and shall also pay an additional administrative charge of 10% of the cost of collection and analysis.

5.0 PERMIT APPLICATION FEES

All applicants required to obtain a Wastewater Contribution Permit shall pay permit fee, at the time their application is filed with the City, of $100.00 to cover the costs of checking and processing said Application. No application shall be accepted by the City unless the fee is paid at the time of filing.

6.0 EFFECTIVE DATE: The rates specified hereinabove shall be come effective during the month of April, 2009 as appropriate and upon its adoption by the City Commission and publication in the official City newspaper.

Subject: Polykart Purchase
Agenda Item: New Business

Recommendation: On May 07, 2010, two quotes were received for the purchase of two truckloads of 96 gallon polykarts. Based on the quotes receive staff would ask that the commission accept the quote from American Equipment in the amount $56,099.20.

Background: Five years ago Amerikart announced that they would no longer offer their metal framed 90 gallon polykart that the City had purchased for years. This forced us and many other cities to look for a polykart that would compare to the old karts. As a result many cities decided to implement an automated kart system. Three years ago Dodge City purchased it's first fully automated kart truck. There are now 3,500 of the new polykarts out on the polykart trash routes and the automated kart trucks now runs Monday through Friday. This purchase of 1,176 polykarts will be utilized by the Sanitation Department to completely change over Mondays kart route and switch over the area west of 14th from dumpsters to polykarts.

Justification: Through much testing by the Sanitation Department they found that the Toter polykart was the most user friendly polykart on the market. Many of the other karts tested were either to light, to tall and heavy, or they could not withstand the extreme conditions of this area.

Financial Considerations: There is $80,000.00 budgeted for this purchase in the 2010 Sanitation Budget
**Purpose/Mission:** To provide the resident of Dodge City with the best possible sanitation service.

Subject: Approval of Bike/Pedestrian Path Bids

Agenda Item: New Business

Recommendation: Staff recommends approving the low bid provided by JAG Construction in the amount of $361,703.80 for construction of the bicycle/pedestrian trail extension subject to concurrence by KDOT.

Background: Bids were opened on Tuesday, May 4th for the construction of the bicycle/pedestrian path extension. Three bidders submitted for the project and a tabulation of those bids is included with this memo.

This project constructs an extension of the existing bicycle/pedestrian path to run west along Highway 50 from 6th Ave. to 14th Ave. and then south to Spiers Park. Through the TEA-21 program, 80% of the cost is reimbursed through national highway and transportation funds and the City is responsible for the remaining 20%. In addition, this project has been approved for ARRA stimulus funding which will reduce the amount of match the City has to provide.

Justification: This project is included in the CIP program and funded for 2010. It provides an extension to the existing trail which has proved to be an immensely popular amenity in the community. This trail segment is also a component of the proposed comprehensive plan and serves to improve the walk-ability of the community.

Financial Considerations: The City’s cost for this project is funded in the 2010 CIP in the amount of $70,000. The City will be providing inspection services for this work which the state will reimburse at 80% of our actual costs so those funds can offset the City’s cash outlay. If additional funding is needed the Parks and Recreation departmental budget has funds available due to staff vacancies that occurred in the beginning of the year.

Purpose/Mission: This project meets the City’s core value of providing ongoing improvements for the citizens of this community.

Legal Considerations: All necessary easements from affected property owners are executed and filed and contractual documents with KDOT are completed.
