E. Kent Smoll, Mayor
EXECUTIVE SUMMARY
2011 Budget
City of Dodge City

Submitted for the Governing Body’s approval is the 2011 operating and capital budget for the City of Dodge City for the fiscal year beginning January 1, 2011. The budget proposal represents the ongoing commitment to manage the delicate balance between funding essential operations, providing for infrastructure investment, and maintaining a stable tax levy.

The proposed budget was developed with three primary objectives.

1). Continuation of our commitment to maintaining and improving our service delivery, through an emphasis on the importance of human resources.

2). Continuing our efforts to fund a Capital Improvement Program, and infrastructure programs in order to insure sound and viable City infrastructure, public works facilities, and overall service delivery capability.

3). Commit the resources needed to provide essential services for a growing community, as well as continue to provide programs and facilities that enhance quality of life for residents.

Budget Assumptions

During the budget preparation process we have made revenue forecasts based on national, state, and local economic trends, and state budget laws. Community needs, departmental program history, and general direction from the governing body were key factors used in projecting program costs for 2011. The budget as presented does not provide any increased services. It represents the same programming as it did in 2009, and with the exception of scheduled salary increases, the same funding level.

Some assumptions used to develop this budget include:

1). Assessed Valuation of $129,478,126. This is a 4.32% increase from 2010. In 2010, the increase was a modest 1.21. The impact of the machinery and equipment abatement for industry as a result of State of Kansas changes in taxation laws, has slowed a little. Many communities are experiencing a decline in assessed valuation because of the housing market and economy. Dodge City has not experienced this decline.

2). Delinquent ad valorem tax at a rate of 5%

3). Salary increase of 2.5%
4). Partially restore funding for the Capital Improvement Program

5). No additional funding for the Municipal Equipment Replacement Program. $100,000 was added after the initial discussion to the General Fund budgets to transfer depreciation expense to the Municipal Equipment Reserve Fund.

6). Health Insurance premiums increased by 8%

7). Continued loss of demand transfer funds from the State of Kansas.

**Property Tax Funds**

The Funds reflected in this budget which are supported by property tax assessment include the General Fund, Special Liability Fund, Library and Library Employee Benefit Funds, Bond & Interest Fund and Capital Improvement Fund. (In this budget the Capital Improvement Fund and the Building Fund have been combined into one fund). All other funds are supported by Special Revenue or User Fees.

This budget is presented by fund, with the revenue being listed first and the expenditures listed next and summarized by category. Reports are available that lists all the line items included in each fund as well as detail of most of the line items. A section has also been added that shows a description of each department along with the staffing levels and historical funding levels.

**Revenue Projections**

The sales tax revenue projection in 2010 is $4,320,000. Because the sales tax has not increased as much as had been projected, this number is too aggressive. In 2011, the sales tax is projected at a 3.5% increase over the 2009 actual. In 2009, the sales tax was down approximately 2% from 2008. Year to Date the sales tax has been up, bouncing from month to month from 2.25% increase to 5.77% increase. This revenue source continues to be strong. Sales tax is one of the non-property tax funding sources that is of great importance to the City as it represents approximately 30% of the total revenue stream for the General Fund budget. For 2011 budget purposes the sales tax projection is at $4,160,000. (This does not include the Why Not Dodge sales tax which is dealt with separately).

Interest income is not a major source of income as it has been in the past. The interest rates for idle public funds are under .25%. This is the lowest that I have ever seen it in my years of public service.

Municipal Court fine revenue had continued to grow at a steady pace, but has reached a plateau and even declined slightly in the last couple of years. I anticipate it will continue to decline.
The following graph provides an overview of the 'General Fund Revenue Sources for the Budget Year 2009 (actual).

![2009 General Fund Revenues](chart)

**Cash Reserves**

I have shown the Cash Reserve in the budget. It is titled Transferred to Capital. This amount reflects 11.14% of the budgeted expenditures for 2010.

**Capital Improvement Program, Municipal Equipment Reserve Fund and Building Fund**

Included in the 2011 Budget is the proposed Five-Year Capital Improvement Program. The items in this program have been prioritized by the City Department Heads. If all available funds are spent, there would be available approximately $520,000.

The Building Fund was started as a method to fund building projects. In the past this has funded payments for the City Hall, Golf Course Club House and the Depot. It had been expected that this would be a partial source of funding for a consolidated Public Works Shop. This fund has not yet had the opportunity to accumulate enough to fund future projects. Because we have continued cutting the mill levy amount in this fund and the expenditures were very similar to the Capital Improvement Funds, it is proposed that these two funds be combined. Any building projects would need to compete with other capital improvement projects for funding.
The Municipal Equipment Reserve Fund is funded by the depreciation amount of the equipment (vehicles and other rolling equipment) in the general fund. This fund then supports the replacement or new equipment for departments in the general fund. The equipment in the other funds (Sales Tax Fund, Water, Sewer and Sanitation) are all listed in the Program, but funded in those individual funds. The Municipal Equipment Reserve Fund is being funded by 0% depreciation in the proposed 2011 budget. There are purchases that are a high priority and mileage plus maintenance costs show that these purchases need to be made in 2011. The large purchase for 2011 is a fire truck at an estimated $400,000. Currently the fund has approximately $1,000,000 in it. Very few purchases are being made in 2010. Historically we have been funding approximately $400,000 per year for capital equipment. In 2011 a priority funding was the new fire truck. Even though there is a substantial balance in this account, the purchase of this fire truck, another large truck for approximately $220,000 and annual police car purchases, etc. the fund would quickly become depleted. In 2011 there is no funding allocated for depreciation. For these reasons, it is recommended that the fire truck be purchased through a lease purchase financing arrangement. Because of the continued increased operating costs in the general fund, it is difficult to fund the depreciation transfers into the Capital Equipment Fund. We continue to evaluate the equipment, which of this equipment can be shared, the replacement schedules, etc. All of the department heads agree that it is important to continue funding the capital equipment fund at some level to maintain quality equipment.

**Funding Considerations**

To accomplish the budget proposal as submitted; first, the departments submitted their proposals they felt were necessary to complete the programs outlined in their department descriptions. At the same time, the revenues were projected based on historic, economic and other factors. The budget was first put together using this information. The City Manager, Assistant City Manager and Finance Director reviewed the proposals. As usual, the requested expenditures far exceeded the revenues when considering a flat mill levy. At that time, an amount equal to the amount the departments spent in 2009 or budgeted in 2010 (whichever was less) was given to the departments as their target amount to arrive at for their proposed budget. Outlined below are what is included in this budget and what was proposed or suggested and not included in this proposed budget.

What is included:

1) A 2.5% salary increase for full time personnel. The amount shown below reflects the salary increase plus the cost of increased benefits (social security and retirement)
Increase

General Fund 186,836
Sales Tax Fund 4,382
Convention and Visitors Fund 3,815
Special Streets Fund 4,301
Water Fund 14,634
Wastewater Fund 4,802
Sanitation Fund 16,243
Drainage Fund 974
Utilities Administration 6,795
Vehicle Maintenance 2,095
Totals 244,877

2) The health insurance was placed with Blue Cross/Blue Shield in 2010. When the health insurance was bid and placed with BC/BS, the first year increase was minimal. Currently employees have 3 options for health insurance. Two of the options are fully paid for by the City. The third option, if chosen by the employee requires an employee contribution. The amount of increase included in the budget is $126,193 in the general fund and approximately $51,600 in the other funds.

3) There are no position changes included in this budget.

4) Programs in all of the departments remained level.

5) There were no increases in the contractual and commodity line items from the 2010 budget.

6) There is continued funding of the Health Savings Account and the Annual Bonus to employees.

7) The community promotions line item includes $50,000. Requests to date are the Cowboy Band at $18,500, The Alley at $10,000, Dodge City Festivals at $10,000, CASA at $8,000 and the fireworks display at $5,000. This request totals $51,500.

8) All 4 Fun remains funded at a subsidy of $30,000.

The items that were originally proposed to be funded, but have been cut are:

1) Depreciation into the Capital Equipment Fund has not been funded.

2) The reserve for the general fund at 15% of the previous year’s budget and was cut to 11.14%.

3) $100,000 was requested by the Dodge City Ford County Economic Development to develop a revolving loan fund for building improvements in the Main Street District.

4) $200,000 was requested by Interfaith Housing Services for use in the implementation of 2 housing initiatives.

5) Many of the operating budgets in the General Fund were reduced significantly.

Other considerations include:
1) The lottery money was estimated at approximately $600,000 per year. The revenue is being recorded in a Growth and Development Fund to be used to support street infrastructure projects. It is proposed to use $250,000 in 2010 and $450,000 in 2011 to fund the Bond & Interest Fund.

2) The construction department is included in the general fund and includes salaries, benefits and other small purchases. The department will also operate as a building maintenance department. It is anticipated to charge back some of the expenses in this fund to individual departments.

4) The 2010 budget also needs to be reevaluated and some cuts made.

Even though we do not anticipate the effects of the economy in Dodge City, in an effort to be prudent and protect the 2011 budget, we will reevaluate the 2010 budget and make every effort to reduce expenditures where we can.

Street GO Bond Program

It is proposed to issue a bond issue in 2010 of approximately $2,130,000. This bond issue is the result of earlier discussions with the Commission regarding the 2010 street program. The first payments will be realized in 2011. The addition of a major bond issue in 2007 resulted in higher payments beginning in 2009. The bond issued in 2009 was for improvements at the Event Center and will be paid by the Casino through Special Assessments. In order to keep the mill levy down, $450,000 of lottery money is proposed to fund the principal and interest payments in 2011.

Library

The Dodge City Public Library submitted a budget proposal of $907,706 for the general Library fund and $219,446 for the Library Employee Benefit Fund for a total of $1,127,152. Last year’s budget was $1,101,657. Approximately $9,200 will need to be cut from the General Library Fund request to maintain the limited 6 mills for the Library. The City Commission approved a mill levy cap of 6 mills for the Library General Fund in 2009.

Special Liability Fund

This funds the City’s insurance premiums. This includes Liability, property, workmen’s compensation, airport liability, and police liability. The Workmen’s Compensation premium has increased substantially. An employee that had been budgeted in the City Manager’s Department in the General Fund will be paid from this fund, as their primary emphasis will be on workmen’s comp and other insurance issues.

Water and Wastewater Funds

The Water Fund budget reflects the operating costs for the distribution of water to the customers, payments of current bonds and some capital improvement projects.
The Wastewater Fund budget reflects the operating costs for the collection of the wastewater and taking that wastewater south of town to the wastewater treatment plant. The City of Dodge City has a contract with OMI to operate that plant.

GO Bonds that were issued in 1999 for Water and Wastewater Improvements were fully paid off in 2009. A revenue bond was issued for the improvements to the current wastewater treatment plant that included water wells and pumps in that area. These improvements were made in partnership with National Beef because of their expansion. As a result, National Beef pays 50% of the total bond payments for this project. The Water fund is responsible for 30% of the remaining payment and the Wastewater Fund is responsible for 70% of the remaining payment.

Two temporary note issues have been made to fund water system improvements. One issue was for $2,265,000 and one for $3,315,000. These were for the purchase of water rights and development of 4 water wells. Both of these temporary notes will mature in 2012.

Construction of the wastewater treatment plant north of Dodge City began early this year. The City received a low interest loan from KDH&E to fund this construction. We launched a rate increase in June and will have another rate increase next year to anticipate the loan repayments. We will begin to make payments on the loan in 2012. In the meantime, we continue to seek other funding sources to reduce the amount of this loan.

**Sales Tax Fund**

The Sales Tax Fund funds the “Why Not Dodge” projects that were voted on in 1997. This budget includes operating budgets for the Racetrack, Athletic Fields, administration costs, “organizational funding” and payments for the Revenue Bond issued in 2009 to fund the events center. Other major expenditures from this fund will result in a budget amendment because we do not know what those costs are at this time.

**Special Revenue Funds**

There are several other funds listed that are not mentioned in this summary. As previously stated, all of the funds are shown separately and each revenue and expenditure source is listed. If you have particular questions on any of these funds, please do not hesitate to contact Ken, Cherise or Nannette.

The 2011 budget is once again a challenge. Costs continue to rise, so we must continually ensure that the services we are providing are the services the community needs and is willing to fund.

If you have any questions or wish additional information, please do not hesitate to contact us.
The Governing Body of the City of Dodge City will meet on the 18th day of August, 2010, at 7:00 p.m. at the City Commission meeting room, 806 2nd Avenue for the purpose of hearing and answering objections of taxpayers relating to the proposed use of all funds and the amount of Ad Valorem Tax.

Detailed budget information is available at City Hall, 806 Second Avenue, and will be available at this hearing.

**BUDGET SUMMARY**

The "Proposed Budget 2011 Expenditures" and the "Amount of 2010 Tax to be Levied" establish the maximum limits of the 2011 budget. The "Est Tax Rate" is subject to change depending on final assessed valuation.

Scope of Services

SMH will conduct a property owner meeting, notice to be sent by certified mail, during which we will explain not only the acquisition process but also the proposed project. We will fully explain the rights as a property owner and the City's ability to utilize the property when property owners are properly compensated. The City of Dodge City will provide a location for the meeting.

Certificates of Title will be collected for each property.

Preparation of property appraisals by a certified appraiser. The property owner and appraiser, with easements staked in the field by survey crews, will discuss the impacts the acquisitions may have on the value of the property. The appraiser then develops a before and after value for the property that will eventually be reviewed by the review appraiser who also visits the site, although he will not meet with individual property owners. Both the primary appraisal and review appraisal result in reports that are initially reviewed by the acquisition agent. Once reviewed the acquisition agent will formulate a recommendation to the City of Dodge City in terms of setting just compensation.

Written offers to property owners by SMH Consultants. The original offer letter will contain language on how to respond to the offer along with the indication that any response will include a counter offer and justification.

For those property owners who do not accept initial offers and instead provide counter offers, SMH will consider the counter offers and formulate an opinion that will be provided to the City of Dodge City. Based on direction from the City of Dodge City, SMH will formulate a response to the counter offer. This process may continue for several iterations. If it becomes evident that the terms requested are unsupported, a recommendation will likely be made to initiate condemnation proceedings with that particular property owner.

Once agreeable terms with property owners have been reached, SMH will provide those property owners with letters of commitment which outline the terms of the agreement. Once agreements and easements are drafted they will be provided to property owners for review. The real estate agreement and easement documents will ultimately be filed with the register of deeds as an official document of the county by the City of Dodge City.

Memorandum

To: City Manager  
   Assistant City Manager  
   City Commissioners  
From: Joseph E. Finley, P.E.  
       Director of Engineering Services  
Date: August 11, 2010  
Subject: Contract with UCI  
Agenda: Consent Calendar

**Recommendation:** Approve contract with UCI to provide construction services for the South Dodge Lift Station.

**Background:** In a previous commission meeting the commission authorized staff to negotiate a contract with UCI to work with PEC on a design-build project to construct a new wet well for the South Dodge Lift Station and to construct other repairs as determined.

**Justification:** The existing sewer service tie-in has failed and must be tied into a new manhole. In addition, the existing wet well has deteriorated to the point it must be repaired or replaced.

**Financial Considerations:** UCI provided a guaranteed maximum price of $196,500.00. This price included costs associated with our original scoping meeting. This project is not budgeted, however each year funds are budgeted for improvements to the collection system. The cost of this project will be taken from those available funds.

**Purpose/Mission:** In repairing the collapsed manhole and replace the existing wet well we preserve our ability to provide sewer service to the residents in this area of the City and provide for any future growth.

**Legal Considerations:** The City will be entering into a legal contract with UCI.

**Attachments:** Contracts & Exhibit A
Exhibit “A”

  - Construction of new 5’ diameter manhole and 180 lf of 16” dip influent piping,
  - Bypass pipe & pumping to allow for demolition of existing wet well and connection to existing pump station.
  - Backfill and grading of site
  - Coating the Wet well and new manhole with 100% solids epoxy to protect concrete
  - Chain link Perimeter fence (400 lf)
  - Install new Bubbler system for pump controls
  - Assist in starting and commission existing Pump Station

- Performance, Payment and warranty Bonds

- To reduce costs UCI is proposing to us a caisson method to construct the wet well so Shoring and sheeting will not be required, the wet well will be constructed on top on existing grade in two sections. The interior of the wet well will excavated out and a Steel plate on the bottom of the structure will allow it to sink to grade. After the Wet well is at grade the bottom section will be “doweled” into the walls.

2.1.2 The Construction Manager shall be responsible for the supervision and coordination of the Work, including the construction means, methods, techniques, sequences and procedures utilized, unless the Contract Documents give other specific instructions. In such case, the Construction Manager shall not be liable to the Owner for damages resulting from compliance with such instructions unless any such error, inconsistency, omission or unsafe practice in the specified construction means, methods, techniques, sequences or procedures was readily apparent and obvious and the Construction Manager failed to timely report to the Owner.

2.1.3 The Construction Manager shall perform Work only within locations allowed by the Contract Documents, applicable permits and applicable law.

2.1.4 WORKSITE VISIT. The Construction Manager acknowledges that it has visited, or has had the opportunity to visit, the Worksite to visually inspect the general and local conditions which could affect the Work.

2.1.5 CONSTRUCTION MANAGER'S REPRESENTATIVE. The Construction Manager's Representative is David Odell. The Construction Manager's Representative shall possess full authority to receive instructions from the Owner and to act on those instructions. The Construction Manager shall notify the Owner in writing of a change in the designation of the Construction Manager's Representative.

2.1.6 PROFESSIONAL SERVICES. The Construction Manager may be required to procure professional services in order to carry out its responsibilities for construction means, methods, techniques, sequences and procedures or as such services are specifically called for by the Contract Documents. The Construction Manager shall obtain these professional services, and any design certifications required, from licensed design professionals. All drawings, specifications, calculations, certifications and submittals prepared by such design professionals shall bear the signature and seal of such design professionals and the Owner, and the Engineer, shall be entitled to rely upon the adequacy, accuracy and completeness of such design services. If professional services are specifically required by the Contract Documents, the Owner shall indicate all required performance and design criteria. The Construction Manager shall not be responsible for the adequacy of such performance and design criteria. The Construction Manager shall not be required to provide such services in violation of existing laws, rules and regulations in the jurisdiction where the Project is located.

2.2 PRECONSTRUCTION SERVICES. The Preconstruction Services under this Paragraph 3.2 are included in the Construction Manager's work.

When Project requirements have been sufficiently identified, the Construction Manager shall prepare a preliminary Schedule of the Work for the Engineer's review and the Owner's approval. The Construction Manager shall coordinate and integrate the Schedule of the Work with the services and activities of the Owner, Construction Manager, Engineer, and the requirements of governmental entities. As design proceeds, the Construction Manager shall update the Schedule of the Work to indicate proposed activity sequences, durations, or milestone dates for such activities as receipt and approval of pertinent information, issuance of the drawings and specifications, the preparation and processing of shop drawings and samples, delivery of materials or equipment requiring long-lead-time procurement, Owner's occupancy requirements and estimated date of Substantial Completion of the Project. If Schedule of the Work updates indicate that milestone dates contained in prior Schedules of the Work will not be met, the Construction Manager shall notify and make recommendations to the Owner. If the Project is to be completed in phases, the Construction Manager shall make recommendations to the Owner and Engineer regarding the phased issuance of the drawings and specifications.

2.2.4 ESTIMATES.

2.2.4.1 When the Owner has sufficiently identified the Owner's Program and other Project requirements and the Engineer has prepared other basic design criteria, the Construction Manager shall prepare, for the review of the Engineer and approval of the Owner, an initial estimate for the Project, utilizing area, volume or similar conceptual estimating techniques.

2.2.4.2 When schematic or preliminary design documents have been completed by the Engineer and approved by the Owner, the Construction Manager shall prepare for the review of the Engineer and approval of the Owner, a more detailed budget with supporting data. During the preparation of the design development documents with drawings and specifications, the Construction Manager shall update and refine this estimate at appropriate intervals agreed upon by the Owner, Engineer and Construction Manager.

2.2.5 CONSTRUCTION DOCUMENT REVIEW. The Construction Manager shall review the drawings and specifications in an effort to identify readily apparent and obvious constructability problems that could impact the Construction Manager's ability to perform the Work in an expeditious and economical manner. The Construction Manager shall advise the Engineer and Owner for their review and action as appropriate. In addition, the Construction Manager shall promptly report to the Owner and the Engineer any such errors or omissions in the drawings and specifications which the Construction Manager believes are readily apparent and obvious.
2.2.6 TEMPORARY FACILITIES. The Construction Manager shall make recommendations regarding temporary construction facilities, equipment, materials and services for common use by the Construction Manager, its Subcontractors, Sub-subcontractors and Material Suppliers.

2.2.7 LONG-LEAD ITEMS. The Construction Manager shall recommend to the Owner and Engineer a schedule for procurement of long-lead-time items that will constitute part of the Work as required to meet the Schedule of the Work. The Construction Manager shall help expedite the delivery of long-lead-time items.

2.2.8 SOLICITATION OF SUBCONTRACTORS AND SUPPLIERS. The Construction Manager shall seek to develop Subcontractor interest in the Project and shall furnish to the Owner and Engineer a list of possible subcontractors from whom proposals may be requested for each principal portion of the Work. The Owner shall promptly reply in writing to the Construction Manager if the Owner or Engineer know of any objection to a subcontractor. The Owner may designate specific persons and/or entities from whom the Construction Manager shall solicit bids.

2.2.10 CONSULTANTS. The Construction Manager shall assist the Owner in selecting, retaining and coordinating the professional services of a surveyor, testing laboratories and special consultants as needed.

2.2.11 PERMITS. The Construction Manager shall assist the Owner in obtaining building permits and special permits for permanent improvements, except for permits required to be obtained directly by the Construction Manager. The GMP does not include pricing for permits as these costs are borne by the Owner.

2.2.12 PRECONSTRUCTION SERVICES. The Construction Manager shall provide the Preconstruction Services as described in this Agreement for a fee of $0, which shall be paid upon execution of this Agreement. The fee for Preconstruction Services shall be included as part of Lump Sum GMP. See Exhibit “A” Scoping Document.

2.3 GUARANTEED MAXIMUM PRICE (GMP)

2.3.1 At such time as the Owner and Construction Manager agree the drawings and specifications are sufficiently complete, the Construction Manager shall prepare and submit to the Owner in writing a GMP. The GMP proposal shall include the sum of the estimated cost of the Work, the Construction Manager’s Fee, the clarifications and assumptions upon which it is based, allowances and reasonable contingencies, and shall include compensation for Preconstruction Services. The GMP shall also include a Schedule of Values as line items. The format for the Schedule of Values shall be substantially in the form set forth in Exhibit A. The Construction Manager does not guarantee that the individual line items as scheduled will not be exceeded, only the GMP. Variances in line items for specific Schedule of Values which exceed or are less than any specific line item may be used for variables in other line items so long as the GMP is not exceeded.

2.3.2 BASIS OF GUARANTEED MAXIMUM PRICE. The Construction Manager shall include with the GMP proposal a written statement of its basis, which shall include: a written statement of its basis as Exhibit “A”.
2.3.2.1 A list of the drawings and specifications, including all addenda, which were used in preparation of the GMP Proposal;

2.3.2.2 A Schedule of Values in form substantially similar to Exhibit A;

2.3.2.3 Exhibit A shall also include the proposed Schedule of Work as set forth below and A list of the assumptions and clarifications made by the Construction Manager in the preparation of the GMP Proposal;

1.0.0 The Construction Manager shall meet with the Owner and Engineer to review the GMP. In the event that the Owner or Engineer discover any inconsistencies, inaccuracies or omissions in the information presented, they shall promptly notify the Construction Manager, who shall make appropriate adjustments to the GMP. The Owner shall then give prompt written approval of the adjusted GMP.

2.3.3 The Owner shall cause the Engineer to revise the drawings and specifications to the extent necessary to reflect the clarifications, assumptions, and allowances on which the GMP is based. Revised drawings and specifications shall be furnished to the Construction Manager in accordance with the current Schedule of the Work, unless otherwise agreed by the Owner, Construction Manager and Engineer. The Construction Manager shall promptly notify the Owner and Engineer if the revised drawings and specifications are inconsistent with the GMP's clarifications, assumptions, and allowances.

2.3.4 If the Contract Documents are not complete at the time the GMP proposal is submitted to the Owner, the Construction Manager shall provide in the GMP for further development of the Contract Documents. Such further development does not include changes in scope, systems, kinds and quality of materials, finishes or equipment, all of which, if required, shall be incorporated by Change Document.

3.3.6 FAILURE TO ACCEPT THE GMP PROPOSAL. Unless the Owner accepts the GMP Proposal in writing on or before the date specified in the GMP Proposal for such acceptance and so notifies the Construction Manager, the GMP Proposal shall not be effective. If the Owner fails to accept the GMP Proposal, or rejects the GMP Proposal, the Owner shall have the right to:

1.0.0.0 Suggest modifications to the GMP Proposal. If such modifications are accepted in writing by Construction Manager, the GMP Proposal shall be deemed accepted in accordance with Subparagraph 3.3.3;

2.3.5.1 Terminate the Agreement for convenience in accordance with Paragraph 12.4.

1.0 CONSTRUCTION SERVICES AND ADMINISTRATION

2.3.6 In order to facilitate its responsibilities for completion of the Work in accordance with and as reasonably inferable from the Contract Documents, prior to commencing the Work the Construction Manager shall examine and compare the drawings and specifications with information furnished by the Owner pursuant to Paragraph 4.3, relevant field measurements made by the Construction Manager and any visible conditions at the Worksite affecting the Work.

2.3.7 If, in the course of the performance of the obligations in Subparagraph 3.4.1, the Construction Manager discovers any errors, omissions or inconsistencies in the Contract Documents, the Construction Manager shall promptly report them to the Owner.
It is recognized, however, that the Construction Manager is not acting in the capacity of a licensed design professional, and that the Construction Manager’s examination is to facilitate construction and does not create an affirmative responsibility to detect errors, omissions or inconsistencies or to ascertain compliance with applicable laws, building codes or regulations. Following receipt of written notice from the Construction Manager of defects, the Owner shall promptly inform the Construction Manager what action, if any, the Construction Manager shall take with regard to the defects.

2.3.8 The Construction Manager shall have no liability for errors, omissions or inconsistencies discovered under Subparagraphs 3.4.1 and 3.4.2, unless the Construction Manager fails to report a readily apparent and obvious problem which the Construction Manager had recognized to the Owner.

2.3.9 The Construction Manager may be entitled to additional costs or time because of clarifications or instructions growing out of the Construction Manager’s reports described in the three (3) preceding subparagraphs.

2.3.10 COST REPORTING. The Construction Manager shall keep such full and detailed accounts as are necessary for proper financial management under this Agreement. Construction Manager shall maintain a complete set of all books and records prepared or used by the Construction Manager with respect to the Project. The Construction Manager’s records supporting its performance and billings under this Agreement shall be current, complete and accurate and maintained according to Generally Accepted Accounting Principles. The Owner shall be afforded access to all the Construction Manager’s records, books, correspondence, instructions, drawings, receipts, vouchers, memoranda and similar data relating to this Agreement and provide access to KDHE for audit. The Construction Manager shall preserve all such records for a period of two years after the final payment or longer where required by law.

2.3.10.1 The Construction Manager agrees to use reasonable skill and judgment in the preparation of cost estimates, Schedule of the Work, Schedule of Values, but does not warrant or guarantee them other than to complete Project within GMP as amended by Change Orders.

2.3.11 CONSTRUCTION PERSONNEL AND SUPERVISION

2.3.11.1 The Construction Manager shall provide competent supervision for the performance of the Work. Before commencing the Work, Construction Manager shall notify Owner in writing of the name and qualifications of its proposed superintendent(s) and project manager, so Owner may review the individual’s qualifications. If, for reasonable cause, the Owner refuses to approve the individual, or withdraws its approval after once giving it, Construction Manager shall name a different superintendent for Owner’s review. Any disapproved superintendent shall not perform in that capacity thereafter at the Worksite.

2.3.11.2 The Construction Manager shall be responsible to the Owner for acts or omissions of Parties or entities performing portions of the Work for or on behalf of the Construction Manager or any of its Subcontractors.

2.3.11.3 The Construction Manager shall permit only fit and skilled persons to perform the Work. The Construction Manager shall enforce safety procedures, strict discipline and good order among persons performing the Work. If the Owner determines that a particular person does not follow safety procedures, or is unfit or unskilled for the assigned work, the Construction
Manager shall immediately reassign the person on receipt of the Owner’s written notice to do so.

2.3.12 SUBMITTALS

2.3.12.1 The Construction Manager shall submit to the Owner and, if directed, to its Engineer for review and the Owner’s approval all shop drawings, samples, product data and similar submittals required by the Contract Documents. Submittals may be submitted in electronic form if required in accordance with Subparagraph 4.6.1. The Construction Manager shall be responsible to the Owner for the accuracy and conformity of its submittals to the Contract Documents. The Construction Manager shall prepare and deliver its submittals to the Owner in such time and sequence so as not to delay the performance of the Work or the work of the Owner and Others. When the Construction Manager delivers its submittals to the Owner, the Construction Manager shall identify in writing for each submittal all changes, deviations or substitutions from the requirements of the Contract Documents. The review and approval of any Construction Manager submittal shall not be deemed to authorize changes, deviations or substitutions from the requirements of the Contract Documents unless express written approval is obtained from the Owner specifically authorizing such deviation, substitution or change. To the extent a change, deviation or substitution causes an impact to the Contract Price or Contract Time, such approval shall be promptly memorialized in a Change Order. Further, the Owner shall not make any change, deviation or substitution through the submittal process without specifically identifying and authorizing such deviation to the Construction Manager. In the event that the Contract Documents do not contain submittal requirements pertaining to the Work, the Construction Manager agrees upon request to submit in a timely fashion to the Owner for review and approval any shop drawings, samples, product data, manufacturers’ literature or similar submittals as may reasonably be required by the Owner.

2.3.12.2 The Owner shall be responsible for review and approval of submittals with reasonable promptness to avoid causing delay.

2.3.12.3 The Construction Manager shall perform all Work strictly in accordance with approved submittals. Approval does not relieve the Construction Manager from responsibility for Defective Work resulting from errors or omissions of any kind on the approved shop drawings.

2.3.12.4 Record copies of the following, incorporating field changes and selections made during construction shall be maintained at the Worksit and available to the Owner upon request: drawings, specifications, addenda and other modifications, and required submittals including product data, samples and shop drawings.

2.3.12.5 No substitutions shall be made in the Work unless permitted in the Contract Documents and then only after the Construction Manager obtains all approvals required under the Contract Documents for substitutions. All such substitutions shall be memorialized promptly in a Change Order no later than seven (7) Days following approval by the Owner and, if applicable, provide for an adjustment in the Contract Price or Contract Time.

2.3.13 The Construction Manager shall prepare and submit to the Owner (Designate only one)

1. Final marked-up as-built drawings
or

such documentation as defined by the Parties by further attachment to this Agreement,
in general documenting how the various elements of the Work were actually constructed or installed.

2.3.14  COOPERATION WITH WORK OF OWNER AND OTHERS

2.3.14.1 The Owner may perform work at the Worksite directly or by Others. Any agreements with Others to perform construction or operations related to the Project shall include provisions pertaining to insurance, indemnification, waiver of subrogation, coordination, interference, clean up and safety which are substantively the same as the corresponding provisions of this Agreement.

2.3.14.2 In the event that the Owner elects to perform work at the Worksite directly or by Others, the Construction Manager and Owner shall coordinate the activities of all forces at the Worksite and agree upon fair and reasonable schedules and operational procedures for Worksite activities. The Owner shall require each separate contractor to cooperate with the Construction Manager and assist with the coordination of activities and the review of construction schedules and operations. The GMP or the Date of Substantial Completion or the Date of Final Completion shall be equitably adjusted, as mutually agreed by the Parties, for changes made necessary by the coordination of construction activities, and the Schedule of the Work shall be revised accordingly. The Construction Manager, Owner and Others shall adhere to the revised Schedule of the Work until it may subsequently be revised.

2.3.14.3 With regard to the work of the Owner and Others, the Construction Manager shall (a) proceed with the Work in a manner which does not hinder, delay or interfere with the work of the Owner or Others or cause the work of the Owner or Others to become defective, (b) afford the Owner or Others reasonable access for introduction and storage of their materials and equipment and performance of their activities, and (c) coordinate the Construction Manager's construction and operations with theirs as required by this Subparagraph 3.4.9.

2.3.14.4 Before proceeding with any portion of the Work affected by the construction or operations of the Owner or Others, the Construction Manager shall give the Owner and Engineer prompt, written notification of any defects the Construction Manager discovers in their work which will prevent the proper execution of the Work. The Construction Manager's obligations in this Subparagraph 3.4.9 do not create a responsibility for the work of Others, but are for the purpose of facilitating the Work. If the Construction Manager does not notify the Owner of patent defects interfering with the performance of the Work, the Construction Manager acknowledges that the work of the Owner or Others is not defective and is acceptable for the proper execution of the work. Following receipt of written notice from the Construction Manager of defects, the Owner shall promptly inform the Construction Manager what action, if any, the Construction Manager shall take with regard to the defects.

2.3.15  CUTTING, FITTING AND PATCHING.
2.3.15.1 The Construction Manager shall perform cutting, fitting and patching necessary to coordinate the various parts of the Work and to prepare its Work for the work of the Owner or Others.

2.3.15.2 Cutting, patching or altering the work of the Owner or Others shall be done with the prior written approval of the Owner. Such approval shall not be unreasonably withheld.

2.3.16 CLEANING UP.

2.3.16.1 The Construction Manager shall regularly remove debris and waste materials at the Worksite resulting from the Work. Prior to discontinuing Work in an area, the Construction Manager shall clean the area and remove all rubbish and its construction equipment, tools, machinery, waste and surplus materials. The Construction Manager shall minimize and confine dust and debris resulting from construction activities. At the completion of the Work and prior to final payment, the Construction Manager shall remove from the Worksite all construction equipment, tools, surplus materials, waste materials and debris.

2.3.16.2 If the Construction Manager fails to commence compliance with cleanup duties within two (2) business Days after written notification from the Owner of non-compliance, the Owner may implement appropriate cleanup measures without further notice and the cost shall be deducted from any amounts due or to become due the Construction Manager in the next payment period.

2.3.16.3 ACCESS TO WORK. The Construction Manager shall facilitate the access of the Owner, its Engineer and Others to Work in progress.

2.3.17 MATERIALS FURNISHED BY THE OWNER OR OTHERS.

2.3.17.1 In the event the Work includes installation of materials or equipment furnished by the Owner or Others, it shall be the responsibility of the Construction Manager to examine the items so provided and thereupon handle, store and install the items, unless otherwise provided in the Contract Documents, with such skill and care as to provide a satisfactory and proper installation. Loss or damage due to acts or omissions of the Construction Manager shall be the responsibility of the Construction Manager and may be deducted from any amounts due or to become due the Construction Manager. Any defects discovered in such materials or equipment shall be reported at once to the Owner. Following receipt of written notice from the Construction Manager of defects, the Owner shall promptly inform the Construction Manager what action, if any, the Construction Manager shall take with regard to the defects.

2.3.18 TESTS AND INSPECTIONS.

2.3.18.1 The Construction Manager shall schedule all required tests, approvals and inspections of the Work or portions thereof at appropriate times so as not to delay the progress of the Work or other work related to the Project. The Construction Manager shall give proper notice to all required Parties of such tests, approvals and inspections. If feasible, the Owner and Others may timely observe the tests at the normal place of testing. Except as provided in Clause 3.4.13.3, the Owner shall bear all expenses associated with tests, inspections and approvals required by the Contract Documents which, unless
otherwise agreed to, shall be conducted by an independent testing laboratory or entity retained by the Owner. Unless otherwise required by the Contract Documents, required certificates of testing, approval or inspection shall be secured by the Construction Manager and promptly delivered to the Owner.

2.3.18.2 If the Owner or appropriate authorities determine that tests, inspections or approvals in addition to those required by the Contract Documents will be necessary, the Construction Manager shall arrange for the procedures and give timely notice to the Owner and Others who may observe the procedures. Costs of the additional tests, inspections or approvals are at the Owner's expense except as provided in Clause 3.4.14.3.

2.3.18.3 If the procedures described in Clauses 3.4.13.1 and 3.4.13.2 indicate that portions of the Work fail to comply with the Contract Documents due to the negligence of the Construction Manager, the Construction Manager shall be responsible for costs of testing pursuant to Clause 3.4.13.2, correction and retesting.

2.4 WORKMANSHIP.

2.4.1 The Work shall be executed in accordance with the Contract Documents in a workmanlike manner. All materials used in the Work shall be furnished in sufficient quantities to facilitate the proper and expeditious execution of the Work and shall be new except such materials as may be expressly provided in the Contract Documents to be otherwise.

2.5 WARRANTY.

2.5.1 The Construction Manager warrants that all materials and equipment furnished under the Construction Phase of this Agreement will be new unless otherwise specified, of good quality, in conformance with the Contract Documents, and free from defective workmanship and materials. At the Owner's request, the Construction Manager shall furnish satisfactory evidence of the quality and type of materials and equipment furnished. The Construction Manager further warrants that the Work shall be free from material defects not intrinsic in the design or materials required in the Contract Documents. The Construction Manager's warranty does not include remedies for defects or damages caused by normal wear and tear during normal usage, use for a purpose for which the Project was not intended, improper or insufficient maintenance, modifications performed by the Owner or Others, or abuse. The Construction Manager's warranty pursuant to this Paragraph 3.6 shall commence on the Date of Substantial Completion, except for Equipment for which warranty commencement date shall be in accordance with the manufacturer's warranty.

2.5.2 With respect to any portion of Work first performed after Substantial Completion, the Construction Manager's warranty obligation shall be extended by the period of time between Substantial Completion and the actual performance of the later Work.

2.5.3 The Construction Manager shall obtain from its Subcontractors and Material Suppliers any special or extended warranties required by the Contract Documents. All such warranties shall then be listed in an attached Addendum to this Agreement. Construction Manager's liability for such warranties shall be limited to the one-year correction period referred to in Paragraph 3.7. After that period Construction Manager shall assign them to the Owner and provide reasonable assistance to the Owner in enforcing the obligations of Subcontractors or Material Suppliers.
2.5.4 Any warranties for Equipment purchased by Construction Manager for installation as part of the Work shall be in conformance to the warranty provided by the Equipment manufacturer and seller, and any warranty by Construction Manager under this Agreement for Equipment is limited to the terms and conditions of the Equipment manufacturer/seller's warranty under this Paragraphs 3.6 and 3.7.

2.6 CORRECTION OF WORK WITHIN ONE YEAR.

2.6.1 If prior to Substantial Completion and within one (1) year after the date of Substantial Completion of the Work any Defective Work is found, the Owner shall promptly notify the Construction Manager in writing. Unless the Owner provides written acceptance of the condition, the Construction Manager shall promptly correct the Defective Work. If within the one (1) year correction period the Owner discovers and does not promptly notify the Construction Manager or give the Construction Manager an opportunity to test or correct Defective Work as reasonably requested by the Construction Manager, the Owner waives the Construction Manager's obligation to correct that Defective Work as well as the Owner's right to claim a breach of the warranty with respect to that Defective Work, but will not waive any claims of negligence that may exist.

2.6.2 With respect to any portion of Work first performed after Substantial Completion, the one (1) year correction period shall be extended by the period of time between Substantial Completion and the actual performance of the later Work. Correction periods shall not be extended by corrective work performed by the Construction Manager.

2.6.3 If the Construction Manager fails to correct Defective Work within a reasonable time after receipt of written notice from the Owner prior to final payment, the Owner may correct it in accordance with the Owner's right to carry out the Work in Paragraph 12.2. In such case, an appropriate Change Order shall be issued deducting the cost of correcting such deficiencies from payments then or thereafter due the Construction Manager. If payments then or there after due Construction Manager are not sufficient to cover such amounts, the Construction Manager shall pay the difference to the Owner.

2.6.4 If after the one (1) year correction period, but before the applicable limitation period the Owner discovers any Defective Work, the Owner shall, unless the Defective Work requires emergency correction, promptly notify the Construction Manager. If the Construction Manager elects to correct the Work it shall provide written notice of such intent within fourteen (14) Days of its receipt of notice from the Owner. The Construction Manager shall complete the correction of Work within a mutually agreed time frame. If the Construction Manager does not elect to correct the Work, the Owner may have the Work corrected by itself or Others and charge the Construction Manager for the reasonable cost of the correction. Owner shall provide Construction Manager with an accounting of correction costs it incurs. Notification by Owner to Construction Manager under this section shall not extend or expand Construction Manager's obligations to correct Defective Work.

2.6.5 If the Construction Manager's correction or removal of Defective Work causes damage to or destroys other completed or partially completed work or existing building, the Construction Manager shall be responsible for the cost of correcting the destroyed or damaged property.

2.6.6 The one (1) year period for correction of Defective Work does not constitute a limitation period for any third-party claims, including but not limited to the
Construction Manager's negligence and the enforcement of the Construction Manager's other obligations under the Contract Documents.

2.6.7 Prior to final payment, at the Owner's option and with the Construction Manager's agreement, the Owner may elect to accept Defective Work rather than require its removal and correction. In such cases the GMP shall be equitably adjusted for any diminution in the value of the Project caused by such Defective Work.

2.7 CORRECTION OF COVERED WORK.

2.7.1 On request of the Owner, Work that has been covered without a requirement that it be inspected prior to being covered may be uncovered for the Owner's inspection. The Owner shall pay for the costs of uncovering and replacement if the Work proves to be in conformance with the Contract Documents, or if the defective condition was caused by the Owner or Others. If the uncovered Work proves to be defective or if no reasonable opportunity for inspection was provided to Owner, the Construction Manager shall pay the costs of uncovering and replacement.

2.7.2 If contrary to specific requirements in the Contract Documents or contrary to a specific request from the Owner, a portion of the Work is covered, the Owner, by written request, may require the Construction Manager to uncover the Work for the Owner's observation. In this circumstance the Work shall be replaced at the Construction Manager's expense and with no adjustment to the Dates of Substantial or Final Completion.

2.7.3 The Construction Manager is required to correct in a timely fashion any Work rejected by the Owner which fails to comply with the Contract Documents prior to the commencement of the warranty period(s) or during the correction period(s) established under Paragraph 3.7. The Construction Manager shall correct at its own cost and time and bear the expense of additional services required for correction of any Defective Work for which it is responsible.

2.8 SAFETY OF PERSONS AND PROPERTY.

2.8.1 SAFETY PRECAUTIONS AND PROGRAMS. The Construction Manager shall have overall responsibility for safety precautions and programs in the performance of the Work. While this Paragraph 3.9 establishes the responsibility for safety between the Owner and Construction Manager, it does not relieve Subcontractors of their responsibility for the safety of persons or property in the performance of their work, nor for compliance with the provisions of applicable laws and regulations.

2.8.2 The Construction Manager shall seek to avoid injury, loss or damage to persons or property by taking reasonable steps to protect:

2.8.2.1 Its employees and other persons at the Worksite;

2.8.2.2 materials and equipment stored at on-site or off-site locations for use in the Work; and

2.8.2.3 property located at the Worksite and adjacent to Work areas, whether or not the property is part of the Work.

2.8.3 CONSTRUCTION MANAGER'S SAFETY REPRESENTATIVE. The Construction Manager's Worksite Safety Representative is the Project Superintendent, Ed Bender, who shall act as the Construction Manager's authorized safety representative.
with a duty to prevent accidents in accordance with Subparagraph 3.9.2. The Construction Manager shall report immediately in writing all accidents and injuries occurring at the worksite. When the Construction Manager is required to file an accident report with a public authority, the Construction Manager shall furnish a copy of the report to the Owner.

2.8.4 The Construction Manager shall provide the Owner with copies of all notices required of the Construction Manager by law or regulation. The Construction Manager's safety program shall comply with the requirements of governmental and quasi-governmental authorities having jurisdiction.

2.8.5 Damage or loss not insured under property insurance which may arise from the Work, to the extent caused by negligent acts or omissions of the Construction Manager, or anyone for whose acts the Construction Manager may be liable, shall be promptly remedied by the Construction Manager. With regard to damage or loss attributable to the acts or omissions of the Owner or Others and not to the Construction Manager, the Owner may either (a) promptly remedy the damage or loss; or (b) accept the damage or loss.

2.8.6 If the Owner deems any part of the Work or Worksite unsafe, the Owner, without assuming responsibility for the Construction Manager's safety program, may require the Construction Manager to stop performance of the Work or take corrective measures satisfactory to the Owner, or both. If the Construction Manager does not adopt corrective measures, the Owner may perform them and deduct their cost from the GMP. The Construction Manager agrees to make no claim for damages, or an increase in the GMP, or for a change in the Dates of Substantial or Final Completion based on the Construction Manager's compliance with the Owner's reasonable request.

2.9 EMERGENCIES. In an emergency, the Construction Manager shall act in a reasonable manner to prevent personal injury or property damage. If appropriate, an equitable adjustment in GMP or Date of Substantial Completion or Date of Final Completion shall be determined in a Change Order.

2.10 HAZARDOUS MATERIALS.

2.10.1 A Hazardous Material is any substance or material identified now or in the future as hazardous under any federal, state or local law or regulation, or any other substance or material that may be considered hazardous or otherwise subject to statutory or regulatory requirement governing handling, disposal or clean-up. The Construction Manager shall not be obligated to commence or continue work until any Hazardous Material discovered at the Worksite has been removed, rendered or determined to be harmless by the Owner as certified by an independent testing laboratory and approved by the appropriate government agency.

2.10.2 If after the commencement of the Work, Hazardous Material is discovered at the Worksite, the Construction Manager shall be entitled to immediately stop Work in the affected area. The Construction Manager shall report the condition to the Owner, the Engineer, and, if required, the government agency with jurisdiction.

2.10.3 The Construction Manager shall not be required to perform any Work relating to or in the area of Hazardous Material without written mutual agreement.

2.10.4 The Owner shall be responsible for retaining an independent testing laboratory to determine the nature of the material encountered and whether the material requires corrective measures or remedial action. Such measures shall be the sole
responsibility of the Owner, and shall be performed in a manner minimizing any adverse effects upon the Work. The Construction Manager shall resume Work in the area affected by any Hazardous Material only upon written agreement between the Parties after the Hazardous Material has been removed or rendered harmless and only after approval, if necessary, of the governmental agency with jurisdiction.

2.10.5 If the Construction Manager incurs additional costs or is delayed due to the presence or remediation of Hazardous Material, the Construction Manager shall be entitled to an equitable adjustment in the GMP or the Dates of Substantial or Final Completion. Construction Manager shall not be responsible for testing or remediating the Worksite as a result of any pre-existing condition at the Worksite due to the presence of Hazardous Materials.

2.11 MATERIALS BROUGHT TO THE WORKSITE.

2.11.1 Material Safety Data (MSD) sheets as required by law and pertaining to materials or substances used or consumed in the performance of the Work, whether obtained by the Construction Manager, Subcontractors, the Owner or Others, shall be maintained at the Worksite by the Construction Manager and made available to the Owner, Subcontractors and Others.

2.11.2 The Construction Manager shall be responsible for the proper delivery, handling, application, storage, removal and disposal of all materials and substances brought to the Worksite by the Construction Manager in accordance with the Contract Documents and used or consumed in the performance of the Work. Unless it is found that Construction Manager has not properly handled the Hazardous Material which it was required to bring to the Worksite by the Contract Documents and used in its performance of the Work, Construction Manager is not responsible for handling the clean-up of any such Hazardous Material.

2.12 CONCEALED OR UNKNOWN WORKSITE CONDITIONS. If the conditions at the Worksite are (a) subsurface or other physical conditions which are materially different from those indicated in the Contract Documents, or (b) unusual or unknown physical conditions which are materially different from conditions ordinarily encountered and generally recognized as inherent in Work provided for in the Contract Documents, the Construction Manager shall give immediate written notice of the condition to the Owner and the Engineer, and, if necessary, stop Work. Any change in the GMP, Construction Manager’s Fee, Date of Substantial Completion or Date of Final Completion and, if appropriate, the Compensation for Preconstruction Services as a result of the unknown condition shall be determined as provided in Article 9. The Construction Manager shall provide the Owner with written notice of any claim as a result of unknown conditions within the time period set forth in Paragraph 9.4.

2.13 PERMITS AND TAXES.

2.13.1 Construction Manager shall give public authorities all notices required by law and, except for permits and fees which are the responsibility of the Owner pursuant to Paragraph 4.4, shall obtain and pay for all necessary permits, licenses and renewals pertaining to the Work. Construction Manager shall provide to Owner copies of all notices, permits, licenses and renewals required under this Agreement.

2.13.2 Construction Manager shall pay all applicable taxes legally enacted when bids are received or negotiations concluded for the Work provided by the Construction Manager.
2.13.3 The GMP is based on the project being Tax exempt for materials purchased in the fulfillment of the Contract. The Owner will provide the Construction Manager a Tax Exemption certificate for the Duration of the Project. The GMP shall be adjusted for additional costs resulting from laws, ordinances, rules and regulations enacted after the date of this Agreement, including increased taxes.

2.13.4 If, in accordance with the Owner's direction, the Construction Manager claims an exemption for taxes, the Owner shall indemnify and hold the Construction Manager harmless from any liability, penalty, interest, fine, tax assessment, attorneys fees or other expense or cost incurred by the Construction Manager as a result of any such action. Owner represents and directs Construction Manager to claim exemption for taxes for the Project.

2.14 CONFIDENTIALITY. The Construction Manager shall treat as confidential and not disclose to third persons, except Subcontractors, Sub-subcontractors and as is necessary for the performance of the Work, or use for its own benefit, any of the Owner's confidential information, know-how, discoveries, production methods and the like that may be disclosed to the Construction Manager or which the Construction Manager may acquire in connection with the Work. The Owner shall treat as confidential information all of the Construction Manager's financial reporting, safety systems and programs, and know-how, discoveries, production methods and the like that may be disclosed to the Owner in connection with the performance of this Agreement. The Owner and the Construction Manager shall each specify those items to be treated as confidential and shall mark them as "Confidential".

ARTICLE 3.

OWNER'S RESPONSIBILITIES

3.1 INFORMATION AND SERVICES. Any information or services to be provided by the Owner shall be provided in a timely manner so as not to delay the Work.

3.2 FINANCIAL INFORMATION. Prior to commencement of the Work and thereafter at the written request of the Construction Manager, the Owner shall provide the Construction Manager with evidence of Project financing. Evidence of such financing shall be a condition precedent to the Construction Manager's commencing or continuing the Work. The Construction Manager shall be notified prior to any material change in Project financing.

3.3 WORKSITE INFORMATION. Except to the extent that the Construction Manager knows of any inaccuracy, the Construction Manager is entitled to rely on Worksite information furnished by the Owner pursuant to this Paragraph 4.3. To the extent the Owner has obtained, or is required elsewhere in the Contract Documents to obtain, the following Worksite information, the Owner shall provide at the Owner's expense and with reasonable promptness:

3.3.1 information describing the physical characteristics of the Worksite, including surveys, Worksite evaluations, legal descriptions, data or drawings depicting existing conditions, subsurface conditions and environmental studies, reports and investigations;

3.3.2 tests, inspections and other reports dealing with environmental matters, Hazardous Material and other existing conditions, including structural, mechanical and chemical tests, required by the Contract Documents or by law; and
3.3.3 any other information or services requested in writing by the Construction Manager which are relevant to the Construction Manager's performance of the Work and under the Owner's control.

The information required by this Paragraph 4.3 shall be provided in reasonable detail. Legal descriptions shall include easements, title restrictions, boundaries, and zoning restrictions. Worksite descriptions shall include existing buildings and other construction and all other pertinent site conditions. Adjacent property descriptions shall include structures, streets, sidewalks, alleys, and other features relevant to the Work. Utility details shall include available services, lines at the Worksite and adjacent thereto and connection points. The information shall include public and private information, subsurface information, grades, contours, and elevations, drainage data, exact locations and dimensions, and benchmarks that can be used by the Construction Manager in laying out the Work.

3.4 BUILDING PERMIT, FEES AND APPROVALS. The Owner shall secure and pay for all permits, approvals, easements, assessments and fees required for the development, construction, use or occupancy of permanent structures or for permanent changes in existing facilities, including the building permit.

3.5 MECHANICS AND CONSTRUCTION LIEN INFORMATION. Within seven (7) Days after receiving the Construction Manager's written request, the Owner shall provide the Construction Manager with the information necessary to give notice of or enforce mechanics lien rights and, where applicable, stop notices. This information shall include the Owner's interest in the real property on which the Project is located and the record legal title.

3.6 CONTRACT DOCUMENTS. Unless otherwise specified, Owner shall provide a reasonable number of hard copies of the Contract Documents to the Construction Manager without cost.

3.6.1 ELECTRONIC DOCUMENTS. If the Owner requires that the Owner, Engineer and Construction Manager exchange documents and data in electronic or digital form, prior to any such exchange, the Owner, Engineer and Construction Manager shall agree on a written protocol governing all exchanges in a separate Agreement, which, at a minimum, shall specify: (1) the definition of documents and data to be accepted in electronic or digital form or to be transmitted electronically or digitally; (2) management and coordination responsibilities; (3) necessary equipment, software and services; (4) acceptable formats, transmission methods and verification procedures; (5) methods for maintaining version control; (6) privacy and security requirements; and (7) storage and retrieval requirements. Except as otherwise agreed to by the Parties in writing, the Parties shall bear their own costs as identified in the protocol. In the absence of a written protocol, use of documents and data in electronic or digital form shall be at the sole risk of the recipient.

3.7 OWNER'S REPRESENTATIVE. The Owner's authorized representative is Joe Finley. The representative shall be fully acquainted with the Project, and shall have authority to bind the Owner in all matters requiring the Owner's approval, authorization or written notice. If the Owner changes its representative or the representative's authority as listed above, the Owner shall immediately notify the Construction Manager in writing.

3.8 OWNER'S CUTTING AND PATCHING. Cutting, patching, or altering the Work by the Owner or Others shall be done with the prior written approval of the Construction Manager, which approval shall not be unreasonably withheld.

3.9 OWNER'S RIGHT TO CLEAN UP. In case of a dispute between the Construction Manager and Others with regard to respective responsibilities for cleaning up at the
Worksite, the Owner may implement appropriate cleanup measures after two (2) business Days notice and allocate the cost among those responsible during the following pay period.

3.10 COST OF CORRECTING DAMAGED OR DESTROYED WORK. With regard to damage or loss attributable to the acts or omissions of the Owner or Others and not to the Construction Manager, the Owner may either (a) promptly remedy the damage or loss or (b) accept the damage or loss. If the Construction Manager incurs additional costs or is delayed due to such loss or damage, the Construction Manager shall be entitled to an equitable adjustment in the GMP, estimated Cost of the Work, Construction Manager’s Fee, Date of Substantial Completion or Date of Final Completion and, if appropriate, the Compensation for Preconstruction Services.

ARTICLE 4.

SUBCONTRACTS

4.1 SUBCONTRACTORS. The Work not performed by the Construction Manager with its own forces shall be performed by Subcontractors. All subcontracts shall be issued on a lump sum basis unless the Owner has given prior written approval of a different method of payment to the Subcontractor.

4.2 AWARD OF SUBCONTRACTS AND OTHER CONTRACTS FOR PORTIONS OF THE WORK.

4.2.1 As soon after the execution of this Agreement as possible the Construction Manager shall provide the Owner, and if directed, the Engineer with a written list of the proposed subcontractors and significant material suppliers. If the Owner has a reasonable objection to any proposed subcontractor or material supplier, the Owner shall notify the Construction Manager in writing. Failure to promptly object shall constitute acceptance.

4.2.2 If the Owner has reasonably and promptly objected as provided in Subparagraph 5.2.1, the Construction Manager shall not contract with the proposed subcontractor or material supplier, and the Construction Manager shall propose another acceptable to the Owner. An appropriate Change Order shall reflect any increase or decrease in the GMP or Dates of Substantial or Final Completion because of the substitution.

4.3 BINDING OF SUBCONTRACTORS AND MATERIAL SUPPLIERS. The Construction Manager agrees to bind every Subcontractor and Material Supplier (and require every Subcontractor to so bind its subcontractors and Material Suppliers) to all the provisions of this Agreement and the Contract Documents as they apply to the Subcontractor’s and Material Supplier’s portions of the Work.

4.4 LABOR RELATIONS. (Insert here any conditions, obligations or requirements relative to labor relations and their effect on the Project. Legal counsel is recommended):

4.5 CONTINGENT ASSIGNMENT OF SUBCONTRACTS.

4.5.1 If this Agreement is terminated, each subcontract agreement shall be assigned by the Construction Manager to the Owner, subject to the prior rights of any surety, provided that:
4.5.1.1 this Agreement is terminated by the Owner pursuant to Paragraphs 12.3 or 12.4; and

4.5.1.2 the Owner accepts such assignment after termination by notifying the Subcontractor and Construction Manager in writing, and assumes all rights and obligations of the Construction Manager pursuant to each subcontract agreement.

4.5.2 If the Owner accepts such an assignment, and the Work has been suspended for more than thirty (30) consecutive Days, following termination, the Subcontractor's compensation shall be equitably adjusted as a result of the suspension.

ARTICLE 5.

TIME

5.1 PERFORMANCE OF THE WORK.

5.1.1 DATE OF COMMENCEMENT. The Date of Commencement is the date of this Agreement as first written in Article 1 unless otherwise set forth below:

Notice to Proceed __________________________
Substantial Completion __________________________
Final Acceptance __________________________

The Work shall proceed in general accordance with the Schedule of Work as such schedule may be amended from time to time, subject to other provisions of this Agreement.

5.1.2 SUBSTANTIAL/FINAL COMPLETION. Unless the Parties agree or otherwise, the Date of Substantial Completion or the Date of Final Completion shall be established in Amendment No. 1 to this Agreement subject to adjustments as provided for in the Contract Documents. The Owner and the Construction Manager may agree not to establish such dates, or in the alternative, to establish one but not the other of the two dates. If such dates are not established upon the execution of this Agreement, at such time as GMP is accepted a Date of Substantial Completion or Date of Final Completion of the Work shall be established in Amendment No.1. If a GMP is not established and the Parties desire to establish a Date of Substantial Completion or Date of Final Completion, it shall be set forth in Amendment No.1.

5.1.3 Time limits stated above are of the essence of this Agreement.

5.1.4 The Construction Manager shall not knowingly commence the Work before the effective date of insurance to be provided by the Construction Manager and Owner as required by the Contract Documents.

5.2 SCHEDULE OF THE WORK.

5.2.1 Before submitting the first application for payment, the Construction Manager shall submit to the Owner and, if directed, the Engineer a Schedule of the Work that shall show the dates on which the Construction Manager plans to commence and complete various parts of the Work, including dates on which information and approvals are required from the Owner. On the Owner's written approval of the Schedule of the
Work, the Construction Manager shall comply with it unless directed by the Owner to do otherwise or the Construction Manager is otherwise entitled to an adjustment in the Contract Time. The Construction Manager shall update the schedule on a monthly basis or at appropriate intervals as required by the conditions of the Work and the Project.

5.2.2 The Owner may determine the sequence in which the Work shall be performed, provided it does not unreasonably interfere with the approved project schedule. The Owner may require the Construction Manager to make reasonable changes in the sequence at any time during the performance of the Work in order to facilitate the performance of work by the Owner or Others. To the extent such changes increase Construction Manager's time and costs the GMP and Dates of Substantial or Final Completion shall be equitably adjusted.

5.3 DELAYS AND EXTENSIONS OF TIME.

5.3.1 If the Construction Manager is delayed at any time in the commencement or progress of the Work by any cause beyond the control of the Construction Manager, the Construction Manager shall be entitled to an equitable extension of the Date of Substantial Completion or Date of Final Completion. In addition, if the Construction Manager incurs additional costs as a result of such delay, the Construction Manager shall be entitled to an equitable adjustment in the GMP subject to Paragraph 11.2. Examples of causes beyond the control of the Construction Manager include, but are not limited to the following: acts or omissions of the Owner, the Engineer or Others; Engineer and/or Owner not providing timely or sufficiently detailed plans and specification for the orderly progress of the Work in accordance with the Schedule, changes in the Work or the sequencing of the Work ordered by the Owner, or arising from decisions of the Owner that impact the time of performance of the Work; labor disputes not involving the Construction Manager; fire; encroaching Hazardous Materials; adverse weather conditions not reasonably anticipated; concealed or unknown conditions; delay authorized by the Owner pending dispute resolution and suspension by the Owner under Paragraph 12.1. The Construction Manager shall submit any requests for equitable extensions of Contract Time or equitable adjustment in Contract Price in accordance with the provisions of Article 9.

5.3.2 In addition, if the Construction Manager incurs additional costs as a result of a delay that is caused by acts or omissions of the Owner, the Engineer or Others, changes in the Work or the sequencing of the Work ordered by the Owner, or arising from decisions of the Owner that impact the time of performance of the Work, encountering Hazardous Materials, or concealed or unknown conditions, delay authorized by the Owner pending dispute resolution or suspension by the Owner under Paragraph 12.1, the Construction Manager shall be entitled to an equitable adjustment in the GMP subject to the Paragraph 9.4.

5.3.3 NOTICE OF DELAYS. In the event delays to the Work are encountered for any reason, the Construction Manager shall provide prompt written notice to the Owner of the cause of such delays after Construction Manager first recognizes the delay, but in no instance longer than three (3) days after the delay is encountered.

5.4 NOTICE OF DELAY CLAIMS. If the Construction Manager requests an equitable extension of Contract Time or an equitable adjustment in Contract Price as a result of a delay described in Subparagraph 6.3.1, the Construction Manager shall give the Owner written notice of the claim in accordance with Paragraph 9.4. If the Construction Manager causes delay in the completion of the Work, the Owner shall be entitled to recover its additional costs subject to Paragraph 11.2. The Owner shall process any such claim against the Construction Manager in accordance with Paragraph 9.
5.5 LIQUIDATED DAMAGES.

5.5.1 SUBSTANTIAL COMPLETION. The Owner and the Construction Manager agree that this Agreement shall provide for the imposition of liquidated damages based on the Date of Substantial Completion established in Subparagraph 6.1.1.

The Construction Manager understands that if the Date of Substantial Completion established by this Agreement, as may be amended by subsequent Change Order, is not attained, the Owner will suffer damages which are difficult to determine and accurately specify. The Construction Manager agrees that if the Date of Substantial Completion is not attained the Construction Manager shall pay the Owner Zero Dollars ($0) as liquidated damages and not as a penalty for each Day that Substantial Completion extends beyond the Date of Substantial Completion. The liquidated damages provided herein shall be in lieu of any and all losses, expenses, claims, penalties and any other damages of whatsoever nature incurred by the Owner which are occasioned by any delay in achieving the Date of Substantial Completion.

5.5.2 FINAL COMPLETION. The Owner and the Construction Manager agree that this Agreement shall provide for the imposition of liquidated damages based on the Date of Final Completion.

5.5.2.1 The Construction Manager understands that if the Date of Final Completion established by this Agreement, as may be amended by subsequent Change Order is not attained, the Owner will suffer damages which are difficult to determine and accurately specify. The Construction Manager agrees that if the Date of Final Completion is not attained the Construction Manager shall pay the Owner Zero Dollars ($0) as liquidated damages and not as a penalty for each Day that Final Completion extends beyond the Date of Final Completion. The liquidated damages provided herein shall be in lieu of any and all losses, expenses, claims, penalties and any other damages of whatsoever nature incurred by the Owner which are occasioned by any delay in achieving the Date of Final Completion.

5.5.3 OTHER LIQUIDATED DAMAGES. The Owner and the Construction Manager may agree upon the imposition of liquidated damages based on other project milestones or performance requirements. Such agreement shall be included as an exhibit to this Agreement.

5.6 LIMITED MUTUAL WAIVER OF CONSEQUENTIAL DAMAGES. The parties have agreed to zero ($0.00) as the amount of liquidated damages in Paragraph 6.5 and excluding losses covered by insurance required by the Contract Documents, the Owner and the Construction Manager also agree to waive all claims against each other for any consequential damages that may arise out of or relate to this Agreement. The Owner agrees to waive damages including but not limited to the Owner’s loss of use of the Project, any rental expenses incurred, loss of income, profit or financing related to the Project, as well as the loss of business, loss of financing, principal office overhead and expenses, loss of profits not related to this Project, loss of reputation, or insolvency. The Construction Manager agrees to waive damages including but not limited to loss of business, loss of financing, principal office overhead and expenses, loss of profits not related to this Project, loss of bonding capacity, loss of reputation, or insolvency. The provision of this Paragraph shall also apply to the termination of this Agreement and shall survive such termination.
ARTICLE 6.
COMPENSATION AND GUARANTEED MAXIMUM PRICE

6.1 The Owner shall compensate the Construction Manager for Work performed on the following basis:

6.1.1 the amount set forth in Exhibit A including Schedule of Values as described in Section 3; and

6.1.2 the Construction Manager's Fee paid in proportion to the Work performed subject to adjustment as provided in Paragraph 7.4.

6.2 The compensation to be paid shall be limited to the GMP established in this Amendment No. 1, as the GMP may be adjusted under Article 9.

6.2.1 Payment for Work performed shall be as set forth in Article 10.

6.3 CONSTRUCTION MANAGER'S FEE. The Construction Manager's Fee is included in the Schedule of Values found in Exhibit A, subject to adjustment as provided in Paragraph 7.4.

6.4 ADJUSTMENT IN THE CONSTRUCTION MANAGER'S FEE. Adjustment in the Construction Manager's Fee shall be made as follows:

6.4.1 for changes in the Work as provided in Article 9, the Construction Manager's Fee shall be adjusted as provided in Paragraph 9.3.1.3:

6.4.2 for delays in the Work not caused by the Construction Manager, except as provided in Paragraph 6.3, there shall be an equitable adjustment in the Construction Manager's Fee to compensate the Construction Manager for increased expenses; and

6.4.3 if the Construction Manager is placed in charge of managing the replacement of an insured or uninsured loss, the Construction Manager shall be paid an additional fee in the same proportion that the Construction Manager's Fee bears to the estimated Cost of the Work for the replacement.

ARTICLE 1.

COST OF CHANGE ORDERS

6.5 If the Owner and Construction Manager cannot otherwise agree on the cost of a Change order, The Owner agrees to pay the Construction Manager for the Cost of Change Orders under Paragraph 9.3.1.3 below.

6.6 DETERMINATION OF COST ITEMS FOR CHANGE ORDERS.

6.6.8 Rental charges of all necessary machinery and equipment, exclusive of hand tools owned by workers, used at the Worksite, whether rented from the Construction Manager or Others, including installation, repair and replacement, dismantling, removal, maintenance, transportation and delivery costs. 6.6.20 All costs directly incurred in the performance of the Work or in
connection with the Project, and not included in the Construction Manager's Fee as set
forth in Article 7, which are reasonably inferable from the Contract Documents as
necessary to produce the intended results.

Owner to the extent such payments are made directly by the Owner. To the extent
payments are made with funds of the Construction Manager, all cash discounts shall

ARTICLE 7.

CHANGES

Changes in the Work that are within the general scope of this Agreement shall be
accomplished, without invalidating this Agreement, by Change Order and Interim
Directed Change.

7.1 CHANGE ORDER.

7.1.1 The Construction Manager may request or the Owner may order
changes in the Work or the timing or sequencing of the Work that impacts the GMP or the
estimated Cost of the Work, Construction Manager's Fee, Date of Substantial Completion
or Date of Final Completion and, if appropriate, the Compensation for Preconstruction
Services. All such changes in the Work shall be formalized in a Change Order. Any such
requests for changes in the Work shall be processed in accordance with this Article 9.

7.1.2 The Owner and the Construction Manager shall negotiate in good faith
an equitable adjustment to the GMP or the Date of Substantial Completion or Date of
Final Completion and shall conclude these negotiations as expeditiously as possible.
Acceptance of the Change Order and any equitable adjustment in the GMP or Date of
Substantial Completion or Date of Final Completion shall not be unreasonably withheld.

7.2 INTERIM DIRECTED CHANGES.
7.2.1 The Owner may issue a written Interim Directed Change directing a change in the Work prior to reaching agreement with the Construction Manager on the adjustment, if any, in the GMP or the Date of Substantial Completion or Date of Final Completion.

7.2.2 The Owner and the Construction Manager shall negotiate expeditiously and in good faith for appropriate adjustments, as applicable, to the GMP or the Date of Substantial Completion or Date of Final Completion arising out of Interim Directed Changes. As the changed Work is performed, the Construction Manager shall submit its costs for such Work with its application for payment beginning with the next application for payment within thirty (30) Days of the issuance of the Interim Directed Change. If there is a dispute as to the cost to the Owner, the Owner shall pay the Construction Manager fifty percent (50%) of its estimated cost to perform the work. In such event, the Parties reserve their rights as to the disputed amount, subject to the requirements of Article 12.

7.2.3 When the Owner and the Construction Manager agree upon the adjustments in the GMP or the Date of Substantial Completion or Date of Final Completion, for a change in the Work directed by an Interim Directed Change, such agreement shall be the subject of an appropriate Change Order. The Change Order shall include all outstanding Interim Directed Changes issued since the last Change Order.

7.3 DETERMINATION OF COST.

7.3.1 An increase or decrease in the GMP or the Date of Substantial Completion or Date of Final Completion resulting from a change in the Work shall be determined by one or more of the following methods:

7.3.1.1 unit prices set forth in this Agreement or as subsequently agreed;

7.3.1.2 a mutually accepted, itemized lump sum;

7.3.1.3 costs calculated on a basis agreed upon by the Owner and Construction Manager plus 10% Overhead and 5% Profit for self performed work; 7% Overhead and 3% Profit for subcontracted work.

7.3.2 If the Owner and the Construction Manager disagree as to whether work required by the Owner is within the scope of the Work, the Construction Manager shall furnish the Owner with an estimate of the costs to perform the disputed work in accordance with the Owner's interpretations.

7.3.3 If the Owner issues a written order for the Construction Manager to proceed, the Construction Manager shall perform the disputed work and the Owner shall pay the Construction Manager Fifty percent (50%) of its estimated cost to perform the work. In such event, both Parties reserve their rights as to whether the work was within the scope of the Work. The Owner’s payment does not prejudice its right to be reimbursed should it be determined that the disputed work was within the scope of Work. The Construction Manager’s receipt of payment for the disputed work does not prejudice its right to receive full payment for the disputed work should it be determined that the disputed work is not within the scope of the Work.

7.4 CLAIMS FOR ADDITIONAL COST OR TIME: Except as provided in Subparagraph 6.3.2 and Paragraph 6.4 for any claim for an increase in the GMP or the Date of Substantial Completion or Date of Final Completion, the Construction Manager
shall give the Owner written notice of the claim within fourteen (14) Days after the occurrence giving rise to the claim. Any claim submitted after said Fourteen (14) Day period shall be deemed to have been waived by the Construction Manager. Except in an emergency, notice shall be given before proceeding with the Work. Any change in the GMP or the Date of Substantial Completion or Date of Final Completion resulting from such claim shall be authorized by Change Order.

ARTICLE 8.

PAYMENT

8.1 SCHEDULE OF VALUES. The Construction Manager shall prepare and submit to the Owner and, if directed, the Engineer, a schedule of values apportioned to the various divisions or phases of the Work. Each line item shall be assigned a value such that the total of all items shall equal the GMP.

8.2 PROGRESS PAYMENTS.

8.2.1 APPLICATIONS. The Construction Manager shall submit to the Owner, and, if directed, its Engineer a monthly application for payment no later than the Twenty-sixth (26th) Day of the calendar month for the preceding thirty (30) Days; or Construction Manager's applications for payment shall be itemized and supported by the Construction Manager's schedule of values and any other substantiating data as required by this Agreement. Payment applications shall include payment requests on account of properly authorized Change Orders or Interim Directed Changes. The Owner shall pay the amount otherwise due on any payment application, no later than twenty (20) Days after the Construction Manager has submitted a complete and accurate payment application. The Owner may deduct from any progress payment amounts as may be retained pursuant to Subparagraph 10.2.4.

8.2.2 STORED MATERIALS AND EQUIPMENT. Unless otherwise provided in the contract documents, applications for payment may include materials and equipment not yet incorporated into the Work but delivered to and suitably stored on-site or off-site including applicable insurance, storage and costs incurred transporting the materials to an off-site including applicable insurance, storage and costs incurred transporting the materials to an off-site storage facility. Approval of payment applications for stored materials and equipment stored off-site shall be conditioned on submission by the Construction Manager of bills of sale and proof of required insurance, or such other procedures satisfactory to the Owner to establish the proper valuation of the stored materials and equipment, the Owner's title to such materials and equipment, and to otherwise protect the Owner's interests therein, including transportation to the Works site.

8.2.3 LIEN WAIVERS AND LIENS.

8.2.3.1 PARTIAL LIEN WAIVERS AND AFFIDAVITS. As a prerequisite for payment, the Construction Manager shall provide partial lien and claim waivers in the amount of the application for payment. Such waivers shall be conditional upon payment. In no event shall the Construction Manager be required to sign an unconditional waiver of lien or claim, either partial or final, prior to receiving payment or in an amount in excess of what it has been paid.

8.2.3.2 RESPONSIBILITY FOR LIENS. If Owner has made payments in the time required by this Article 10, the Construction Manager shall, within thirty (30) Days after filing, cause the removal of any liens filed against the premises or public improvement fund by any party or parties performing labor or services or
supplying materials in connection with the Work. If the Construction Manager fails to take such action on a lien to provide Owner with a plan of action satisfactory to Owner for resolution of issues and removal of the lien, the Owner may cause the lien to be removed at the Construction Manager’s expense, including bond costs and reasonable attorneys’ fees. This Clause shall not apply if there is a dispute pursuant to Article 13 relating to the subject matter of the lien.

8.2.4 RETAINAGE. From each progress payment made prior to Substantial Completion, the Owner may retain ten percent (10%), of the amount otherwise due after deduction of any amounts as provided in Paragraph 10.3 and in no event shall such percentage exceed any applicable statutory requirements.

10.2.4.1 If the progress of the Work is satisfactory, after the Work is fifty percent (50%) complete, the Owner shall withhold no additional retainage and shall pay the Construction Manager the Full amount of what is due on account of progress payments;

10.2.4.2 The Owner may, in its sole discretion, reduce the amount to be retained at any time;

10.2.4.3 The Owner may release retainage on that portion of the Work a Subcontractor has completed in whole or in part, and which the Owner has accepted;

10.2.4.4 In lieu of retainage, the Construction Manager may furnish a retention bond or other security interest, acceptable to the Owner, to be held by the Owner.

8.3 ADJUSTMENT OF CONSTRUCTION MANAGER’S PAYMENT APPLICATION. The Owner may adjust or reject a payment application or nullify a previously approved payment application, in whole or in part, as may reasonably be necessary to protect the Owner from loss or damage based upon the following, to the extent that the Construction Manager is responsible under the Agreement:

10.3.1 The Construction Manager’s repeated failure to perform the Work as required by the Contract Documents;

10.3.2 Loss or damage arising out of or relating to this Agreement and caused by the Construction Manager to the Owner or Others to whom the Owner may be liable;

10.3.3 The Construction Manager’s failure to properly pay Subcontractors and Material Suppliers following receipt of such payment from the Owner;

10.3.4 Defective Work not corrected in a timely fashion;

10.3.5 Reasonable evidence of delay in performance of the Work such that the Work will not be completed by the Dates of Substantial or Final Completion; and

10.3.6 Reasonable evidence demonstrating that the unpaid balance of the GMP is insufficient to fund the cost to complete the Work.

10.3.7 Third-party claims involving the Construction Manager or reasonable evidence demonstrating that third-party claims are likely to be filed
unless and until the Construction Manager furnishes the Owner with adequate security in the form of a surety bond, letter of credit or other collateral or commitment sufficient to discharge such claims if established.

10.3.8 No later than seven (7) Days after receipt of an application for payment, the Owner shall give written notice to the Construction Manager, at the time of disapproving or nullifying all or part of an application for payment, stating its specific reasons for such disapproval or nullification, and the remedial actions to be taken by the Construction Manager in order to receive payment. When the above reasons for disapproving or nullifying an application for payment are removed, payment will be promptly made for the amount previously withheld.

8.4 ACCEPTANCE OF WORK. Neither the Owner’s payment of progress payments nor its partial or full use or occupancy of the Project constitutes acceptance of Work not complying with the Contract Documents.

8.5 PAYMENT DELAY. If for any reason not the fault of the Construction Manager the Construction Manager does not receive a progress payment from the Owner within seven (7) Days after the time such payment is due as defined in Subparagraph 10.2.1, then the Construction Manager, upon giving seven (7) Days’ written notice to the Owner, and without prejudice to and in addition to any other legal remedies, may stop Work until payment of the full amount owing to the Construction Manager has been received, including interest from the date payment was due. The GMP and Dates of Substantial or Final Completion shall be equitably adjusted by a Change Order for reasonable cost and delay resulting from shutdown, delay and start-up.

8.6 SUBSTANTIAL COMPLETION

8.6.1 The Construction Manager shall notify the Owner and, if directed, its Engineer when it considers Substantial Completion of the Work or a designated portion to have been achieved. The Owner, with the assistance of its Engineer, shall promptly conduct an inspection to determine whether the Work or designated portion can be occupied or utilized for its intended use by the Owner without excessive interference in completing any remaining unfinished Work by the Construction Manager. If the Owner determines that the Work or designated portion has not reached Substantial Completion, the Owner, with the assistance of its Engineer shall promptly compile a list of items to be completed or corrected so the Owner may occupy or utilize the Work or designated portion for its intended use. The Construction Manager shall promptly complete all items on the list.

8.6.2 When Substantial Completion of the Work or a designated portion is achieved, the Construction Manager shall prepare a Certificate of Substantial Completion that shall establish the date of Substantial Completion, and the respective responsibilities of the Owner and Construction Manager for interim items such as security, maintenance, utilities, insurance and damage to the Work, and fixing the time for completion of all items on the list accompanying the Certificate. The Certificate of Substantial Completion shall be submitted by the Construction Manager to the Owner, and if directed, to its Engineer for the Owner’s written acceptance of responsibilities assigned in the Certificate.

8.6.3 Unless otherwise provided in the Certificate of Substantial Completion, warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or a designated portion.

8.6.4 Unless otherwise provided herein, upon acceptance by the Owner of the Certificate of Substantial Completion, the Owner shall pay to the Construction Manager the remaining retainage held by the Owner for the Work described in the Certificate of
Substantial Completion less a sum equal to two hundred percent (200%) of the estimated cost of completing or correcting remaining items on that part of the Work, as agreed to by the Owner and Construction Manager as necessary to achieve Final Completion. Uncompleted items shall be completed by the Construction Manager in a mutually agreed time frame. The Owner shall pay the Construction Manager monthly the amount retained for unfinished items as each item is completed.

8.7 PARTIAL OCCUPANCY OR USE.

8.7.1 The Owner may occupy or use completed or partially completed portions of the Work when (a) the portion of the Work is designated in a Certificate of Substantial Completion, (b) appropriate insurer(s) consent to the occupancy or use, and (c) public authorities authorize the occupancy or use. The Construction Manager shall not unreasonably withhold consent to partial occupancy or use. Owner shall not unreasonably refuse to accept partial occupancy.

8.8 FINAL COMPLETION AND FINAL PAYMENT.

8.8.1 Upon notification from the Construction Manager that the Work is complete and ready for final inspection and acceptance, the Owner, with the assistance of its Engineer shall promptly conduct an inspection to determine if the Work has been completed and is acceptable under the Contract Documents.

8.8.2 When the Work is complete, the Construction Manager shall prepare for the Owner’s acceptance a final application for payment stating that to the best of the Construction Manager’s knowledge, and based on the Owner’s inspections, the Work has reached final completion in accordance with the Contract Documents.

8.8.3 Final payment of the balance of the GMP shall be made to the Construction Manager within twenty (20) Days after the Construction Manager has submitted an application for final payment, including submissions required under Subparagraph 10.8.4, and a Certificate of Final Completion has been executed by the Owner and Construction Manager.

8.8.4 Final payment shall be due on the Construction Manager’s submission of the following to the Owner:

8.8.4.1 an affidavit declaring any indebtedness connected with the Work, e.g. payrolls or invoices for materials or equipment, to have been paid, satisfied or to be paid with the proceeds of final payment, so as not to encumber the Owner’s property;

8.8.4.2 as-built drawings, manuals, copies of warranties and all other close-out documents required by the Contract Documents;

8.8.4.3 release of any liens, conditioned on final payment being received;

8.8.4.4 consent of any surety if required by Owner; and

8.8.5 If, after Substantial Completion of the Work, the Final Completion of a portion of the Work is materially delayed through no fault of the Construction Manager,
the Owner shall pay the balance due for portion(s) of the Work fully completed and accepted. If the remaining contract balance for Work not fully completed and accepted is less than the retained amount prior to payment, the Construction Manager shall submit to the Owner, and if directed the Engineer the written consent of any surety to payment of the balance due for portions of the Work that are fully completed and accepted. Such payment shall not constitute a waiver of claims, but otherwise shall be governed by Paragraph 10.8.

8.8.6 Claims not reserved in writing with the making of final payment shall be waived except for claims relating to liens or similar encumbrances, warranties and Defective Work.

8.8.7 ACCEPTANCE OF FINAL PAYMENT. Unless the Construction Manager provides written identification of unsettled claims with an application for final payment, its acceptance of final payment constitutes a waiver of such claims.

8.9 LATE PAYMENT. Payments due but unpaid shall bear interest from the date payment is due at the prime rate prevailing at the place of the Project.

If the Construction Manager fails to promptly commence and continue satisfactory correction of the default following receipt of such second notice, the Owner without prejudice to any other rights or remedies may:

Termination for default is in addition to any other remedies available to Owner under Paragraph 12.2. If the Owner's cost arising out of the Construction Manager's failure to cure, including the cost of completing the Work and reasonable attorney fees, exceeds the unpaid GMP, the Construction Manager shall be liable to the Owner for such excess costs. In the event the Owner exercises its rights under this Paragraph, upon the request of the Construction Manager the Owner shall furnish to the Construction Manager a detailed accounting of the cost incurred by the Owner.

10.3.2 If the Owner or Others perform Work under this Paragraph 12.3, the Owner shall have the right to take and use any materials and supplies belonging to the Construction Manager and located at the Worksite for the purpose of completing any remaining Work. Immediately upon completion of the Work, any remaining materials, supplies or equipment not consumed or incorporated in the Work, and not paid for by Owner, shall be returned to the Construction Manager in substantially the same condition as when they were taken, reasonable wear and tear excepted.

10.5.1.3 suspension by Owner for convenience pursuant to Paragraph 12.1.

10.5.2 In addition, upon ten (10) Days' written notice to the Owner, the Construction Manager may terminate the Agreement if the Owner:

10.5.2.1 fails to furnish reasonable evidence pursuant to Paragraph 4.2 that sufficient funds are available and committed for Project financing or

10.5.2.2 assigns this Agreement over the Construction Manager's reasonable objection, or

10.5.2.3 fails to pay the Construction Manager in accordance with this Agreement and the Construction Manager has complied with Paragraph 10.6.

The mediation shall be convened within thirty (30) business Days of the matter first being discussed and shall conclude within forty-five (45) business Days of the matter being first discussed. The costs of the mediation shall be shared equally by the Parties.

11.4 BINDING DISPUTE RESOLUTION. If the matter remains unresolved after submission of the matter to a mitigation procedure or to mediation, the Parties shall submit the matter to the binding dispute resolution procedure selected herein:

(Designate only one):

___X___ Litigation in either the state or federal court having jurisdiction of the matter in the location of the Project.

11.4.1 VENUE. The venue of any binding dispute resolution procedure shall be the location of the Project unless the Parties agree on a mutually convenient location.

11.5 MULTIPARTY PROCEEDING. The Parties agree that all Parties necessary to resolve a claim shall be Parties to the same dispute resolution proceeding. Appropriate provisions shall be included in all other contracts relating to the Work to provide for the joinder or consolidation of such dispute resolution procedures.

11.6 LIEN RIGHTS. Nothing in this Article 13 shall limit any rights or remedies not expressly waived by the Construction Manager that the Construction Manager may have under lien laws.

ARTICLE 12.

MISCELLANEOUS PROVISIONS

12.1 ASSIGNMENT. Neither the Owner nor the Construction Manager shall assign their interest in this Agreement without the written consent of the other except as to the assignment of proceeds. The terms and conditions of this Agreement shall be binding upon both Parties, their partners, successors, assigns and legal representatives. Neither Party to this Agreement shall assign the Agreement as a whole without written consent of the other except that the Owner may assign the Agreement to a wholly owned subsidiary of Owner when Owner has fully indemnified Construction Manager or to an institutional lender providing construction financing for the Project as long as the assignment is no less favorable to the Construction Manager than this Agreement. In the event of such assignment, the Construction Manager shall execute any consent reasonably required. In such event, the wholly owned subsidiary or lender shall assume the Owner’s rights and obligations under the Contract Documents. If either Party attempts to make such an assignment, that Party shall nevertheless remain legally responsible for all obligations under this Agreement, unless otherwise agreed by the other Party.
12.2 GOVERNING LAW. This Agreement shall be governed by the law of the State of Kansas.

12.3 SEVERABILITY. The partial or complete invalidity of any one or more provisions of this Agreement shall not affect the validity or continuing force and effect of any other provision.

12.4 NO WAIVER OF PERFORMANCE. The failure of either Party to insist, in any one or more instances, on the performance of any of the terms, covenants or conditions of this Agreement, or to exercise any of its rights, shall not be construed as a waiver or relinquishment of such term, covenant, condition or right with respect to further performance or any other term, covenant, condition or right.

12.5 TITLES AND GROUPINGS. The titles given to the articles of this Agreement are for ease of reference only and shall not be relied upon or cited for any other purpose. The grouping of the articles in this Agreement and of the Owner's specifications under the various headings is solely for the purpose of convenient organization and in no event shall the grouping of provisions, the use of paragraphs or the use of headings be construed to limit or alter the meaning of any provisions.

12.6 JOINT DRAFTING. The Parties expressly agree that this Agreement was jointly drafted, and that both had opportunity to negotiate its terms and to obtain the assistance of counsel in reviewing its terms prior to execution. Therefore, this Agreement shall be construed neither against nor in favor of either Party, but shall be construed in a neutral manner.

12.7 RIGHTS AND REMEDIES. The Parties' rights, liabilities, responsibilities and remedies with respect to this Agreement, whether in contract, tort, negligence or otherwise, shall be exclusively those expressly set forth in this Agreement.

ARTICLE 13.

CONTRACT DOCUMENTS

13.1 The Contract Documents in existence at the time of execution of this Agreement are as follows:

13.2 INTERPRETATION OF CONTRACT DOCUMENTS.

13.2.1 The drawings and specifications are complementary. If Work is shown only on one but not on the other, the Construction Manager shall perform the Work as though fully described on both consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the indicated results.

13.2.2 In case of conflicts between the drawings and specifications, the specifications shall govern. In any case of omissions or errors in figures, drawings or specifications, the Construction Manager shall immediately submit the matter to the Owner and, if directed, to its Engineer for clarification. The Owner's clarifications are final and binding on all Parties, subject to an equitable adjustment in Dates of Substantial or Final Completion or Price pursuant to Article 9 or dispute resolution in accordance with Article 13.

13.2.3 Where figures are given, they shall be preferred to scaled dimensions.
13.2.4 Any terms that have well-known technical or trade meanings, unless otherwise specifically defined in this Agreement, shall be interpreted in accordance with their well-known meanings.

13.2.5 In case of any inconsistency, conflict or ambiguity among the Contract Documents, the documents shall govern in the following order: (a) Change Orders and written amendments to this Agreement; (b) the Agreement; (c) subject to Subparagraph 15.2.2 the drawings, specifications and addenda issued prior to the execution of this Agreement; (d) approved submittals; (e) information furnished by the Owner pursuant to Paragraph 4.3; (f) other documents listed in this Agreement. Among all the Contract Documents, the term or provision that is most specific or includes the latest date shall control. Information identified in one Contract Document and not identified in another shall not be considered to be a conflict or inconsistency. If any provision of this Agreement conflicts with or is inconsistent with any other provision of other Contract Documents, the provision of this Agreement governs, unless the other provision specifically refers to the provision it supersedes and replaces in this Agreement.

This Agreement is entered into as of the date entered in Article 1.

From: Dennis Veatch

Date: August 11, 2010

Subject: 10-13 Overland Property Group
   Rezoning Of Trinity Association
   Property
   Agenda Item: Ordinances and Resolutions

Recommendation: The Dodge City Zoning Board is recommending approval of Ordinance No. 3494. Development Services Staff concurs with the recommendation.

Background: Mr. Brett Johnson, member of Overland Property Group, LLC, submitted an application on June 18, 2010 to rezone a tract of land north of Trinity Manor and east of Sixth Avenue from R-S, Residential Suburban to R-3, Residential High Density. Owners of the property, Methodist Hospital Association, Inc., submitted a Letter of Authorization authorizing Overland Property Group to act as an agent for the purpose of gaining approval for this project. The Zoning Board held a public hearing on July 29, 2010 to review this case. The Zoning Board is recommending approval of the rezoning by a 4-0 vote on the basis of staff recommendation, compatibility with the City Comprehensive Plan and proximity to adjacent R-3 zoning districts and uses. This hearing was duly advertised in the Dodge City Daily Globe. There were a number of citizens in attendance that spoke for and against this request. The owners within 200 feet of the proposed area submitted a protest petition at the end of the public hearing on July 29, 2010. 14 owners out of the total 19 owners of record signed the protest petition. The protest petition has been determined to be sufficient enough to require that the ordinance adopting the amendment shall not be passed except by at least a ¾ vote of all of the members of the governing body. The governing body may choose to override the Zoning Boards recommendation by a 2/3 majority vote of the membership of the governing body or return such recommendation to the Zoning Board with a statement specifying the basis of failure to approve or disapprove.
**Justification:** Mr. Johnson proposes to develop this property into affordable housing. The development conforms to the Dodge City Zoning Regulations and the City Comprehensive Plan.

**Financial Considerations:** None

**Purpose/Mission:** To provide affordable housing within the community of Dodge City.

**Legal Considerations:** None

**Attachments:** Ordinance No. 3494, Development Services Report and map showing proposed rezoning.

CITY OF DODGE CITY
DEVELOPMENT SERVICES REPORT
CASE NO. 10-13

APPLICANT: Brett Johnson - Overland Prop.

REQUEST: Zoning Map amendment, from R-S, Residential Suburban to R-3, Residential High-Density.

SURROUNDING LAND USES (ZONING):
North- Residential High Density (R-3)
South- Residential Suburban (R-S)
East- Residential High Density (R-3)
West- Residential Low Density (R-1)

BACKGROUND
This property has always been zoned R-S, Residential Suburban since annexation into the city limits. It is vacant and has never been developed or subdivided. The property to the North and East was platted as Ross Addition and approved and filed on April 9, 1976. Zoning Ordinance No. 2171 designated Lots 1 thru 11, Block 7, Ross Addition as R-3, Multiple Family Residential and passed by the Governing Body of the City of Dodge City on July 6, 1976.

The Comprehensive Plan indicates that this site is located within a Residential Stable Neighborhood predominantly comprising of well maintained single family and multi-family residential structures that function as desirable living areas, and that should be preserved and protected from disruptive uses and poor property maintenance practices.

Residential Stable Neighborhood policies should be followed:
- Timely, routine maintenance of all property is specifically encouraged. Enforcement of the Property Maintenance Code will correct any minor problems before they become severe.
- Vacant land or the reuse of presently occupied land or structures should be used for residential, public, or semi-public uses (such as schools and places of worship).
- This plan encourages the construction of a wide range of new housing types in stable areas. New residential uses should be compatible with existing residential structures, but new structures are not restricted to single family detached units. Attached or multiple family structures may be compatible in certain locations so long as other policies, principles and standards are followed.
- The density of new residential development should be in the same range as the average density of surrounding existing areas. Significant increases in density to a higher range should be considered only if adequate access is provided, existing streets are capable of safely accommodating the traffic added by the higher density, the bulk and orientation of the new structures will not adversely affect the use of nearby property, and adequate utilities are available to the site.
ANALYSIS
This site is adjacent to R-3, Residential High Density zoning district to the North and East. The proposed development plan provides adequate access and Sixth Street is capable of safely accommodating the traffic added by the higher density. This zoning change would be compatible to the surrounding area.

RECOMMENDATION
Development Services staff recommends that the Zoning Board approve this application.

Memorandum

To: Ken Strobel, City Manager
    Cherise Tieben, Assistant City Manager
From: Nannette Pogue
Date: August 11, 2010
Subject: Budget Ordinance
Agenda Item: Ordinances and Resolutions

**Recommendation:** I recommend the approval of Ordinance No. 3495

**Background:** The State of Kansas requires an Ordinance be adopted by the City if tax revenues increase from the previous year. I have included the worksheet to determine if the tax has increased excluding the debt service levy. For the 2011 budget there was an increase in the amount of property tax that is required so an Ordinance is required. That ordinance is attached and simply states that the Commission has scheduled a public hearing and has determined that in order to maintain the level of service provided, an increase in tax levy is necessary.

**Justification:** In order to maintain the level of service provided, the property tax required to fund the 2011 Budget increased from the 2010 Budget.

**Financial Considerations:** The mill levy of 49.908 remained the same, but the amount levied increased by $268,405.

**Purpose/Mission:** Maintain quality of life.

**Legal Considerations:** Ordinance required by State Statute.

**Attachments:** Ordinance No.
ORDINANCE NO. 3495

AN ORDINANCE ATTESTING TO AN INCREASE IN TAX REVENUES FOR THE BUDGET YEAR 2011 FOR THE CITY OF DODGE CITY.

WHEREAS, the City of Dodge City must continue to provide services to protect the health, safety, and welfare of the citizens of this community; and

WHEREAS, the cost of providing essential services to the citizens of this city continues to increase.

NOW THEREFORE, be it ordained by the Governing Body of the City of Dodge City:

Section 1. In accordance with state law, the City of Dodge City has scheduled a public hearing and has prepared the proposed budget necessary to fund city services from January 1, 2011 until December 31, 2011.

Section 2. After careful public deliberations, the governing body has determined that in order to maintain the public services that are essential for the citizens of this city, it will be necessary to budget property tax revenues in an amount exceeding the levy in the 2010 budget.

Section 3. This ordinance shall take effect after publication once in the official city newspaper.

Passed and approved by the Governing Body on this 16th day of August, 2011.
