AG CMB Individual Application (Rev. 1.26.10)
Memorandum

To: City Manager
Assistant City Manager
City Commissioners

From: Joseph E. Finley, P.E.
Director of Engineering Services

Date: December 1, 2010
Subject: Ordinance 3501
Agenda: Ordinances and Resolutions

Recommendation: Approve Ordinance 3501

Background: Recently the Middle School entrances located on Morgan Street were reconfigured and combined to form one entrance. As part of the project the mid-block crosswalk was relocated to the entrance and a fully functional set of traffic signals were installed. Staff has noticed that parents that are dropping students off at the schools are parking in the crosswalk area as well as the traveling lanes at this new entrance. The intent of this ordinance was to restrict parking in this area. However, once staff began to research various ordinances for the existing parking restrictions, bus zones, handicap parking, and loading zones, it became apparent that some of the existing ordinances were no longer pertinent or needed to be modified to take into account changes that have occurred. This ordinance will repeal several ordinances and combine them into one ordinance.

Justification: By adding the restrictions to the Middle School, traffic can flow properly and students can have a safe route to the school.

Financial Considerations: There will be costs associated with installation of signs and publishing the ordinance.

Purpose/Mission: To provide a safe street for our traveling and walking public.

Legal Considerations: The ordinance must be published and signs erected for the ordinance to take effect once it has been approved by the commission.

Attachments: Map showing additional parking restriction at the Middle School.

Subject: Boundary Ordinance Describing the City Limits of Dodge City

Agenda: Ordinances and Resolutions

**Recommendation:** Approval of Boundary Resolution

**Background:** Each year the City must adjust the boundary ordinance that describes the City limits of the City to account for any additional land that has been annexed in the past year. Since the adoption of the last boundary ordinance, one new annexation has occurred. That location is Lot 1 Block 1 of the church subdivision. This Lot is located on 14th Avenue between the Nazarene and Catholic Churches. The other change is to correct the description of the boundary of the Happy Trail subdivision located on Trail Street.

**Justification:** Additional land has been annexed by the City and The City is required by KSA 12-517 to adjust the City’s boundary by resolution.

**Financial Considerations:** Publishing costs

**Purpose/Mission:** The City is responsible for following State laws. By updating our boundaries, we have identified what properties should be served by the City and can plan for long-term improvements to those areas.

**Legal Considerations:** The City is obligated under state statute to update the boundary of the City by the last day of December.

**Attachments:** Boundary Resolution

Memorandum

To: City Commissioners
From: Cherise Tieben/Ken Strobel
Date: December 6, 2010
Subject: La Estancia RHID
Agenda Item: Resolution

Recommendation: Staff recommends adoption of Resolution 2010-29 which states City’s intent to establish a Rural Housing Incentive District (RHID) for the construction of the La Estancia apartment complex and establishes a date for a Public Hearing concerning the matter.

Background: In 2008, the City commissioned a Housing Needs Analysis which reflected a critical shortage of housing available in the community. In 2009, the City Commission adopted a Resolution providing for several incentive programs in order to encourage housing development in the City. The RHID was identified as one of those programs. The program has captured the attention of several developers, including the Overland Property Group from the Kansas City area. Working with City Staff the group has prepared a development plan providing for a series of multi-family apartment complexes to be located on the west side of 6th Avenue just north of Highway 50 on a tract of property acquired by the Overland Property Group.

Under the proposed RHID plan, the developer finances the infrastructure and apartment complex construction. The developer is then reimbursed for a portion of the infrastructure costs through the incremental real estate taxes assessed against the completed improvements, which allows the developer to price the apartments at an affordable rate. The initial development will include two multi-family 16 unit complexes as well as a club house, with future expansion to accommodate approximately 80 total units. The apartments will provide high quality living accommodations and amenities at an affordable rental rate.

Justification: Establishment of the RHID is necessary in order to address the City’s critical housing shortage.

Financial Considerations: Infrastructure costs are paid by the incremental real estate tax resulting from the development.

Purpose/Mission: To provide adequate housing in order for the City to accommodate present and future growth.

Legal Considerations: The RHID is established under the statutory provisions authorizing city’s of our size to provide incentives for housing development as approved by the State Department of Commerce.

EXHIBIT E

SUMMARY OF THE CONTRACTUAL ASSURANCES BY THE DEVELOPER AND OF THE COMPREHENSIVE FEASIBILITY ANALYSIS

Contractual Assurances.

The Governing Body of the City of Dodge City has entered into a development agreement with La Estanica Partners, LLC. This agreement, as supplemented and amended, includes the project construction schedule, a description of projects to be constructed, financial obligations of the developer and financial and administrative support from the City of Dodge City.

Feasibility Study.

The City conducted a study to determine whether the public benefits derived from the District will exceed the costs and that the income from the District, together with other sources of revenue provided by the developer, would be sufficient to pay for the public improvements to be undertaken in the District. The analysis estimates the property tax revenues that will be generated from the development, less existing property taxes to determine the revenue stream available to support the costs of the public infrastructure. The estimates indicate that the revenue realized from the project would be adequate to pay the costs of the public infrastructure.

Subject: Hennessy Re-roof bids
Agenda Item: New Business

Recommendation: Staff recommends accepting the bid from Diamond Roofing in the amount of $228,990 for re-roofing and $11.75/s.f. for deck repair for Hennessy Hall on the St. Mary Complex.

Background: Previously the east half of the main structure and the Chapel area were re-roofed and those areas remain in good condition and the roof systems are performing well. This project re-roofs the west half of the main structure and corrects problem areas around numerous door overhangs and ledges.

The west section is seriously compromised and requires immediate attention. In some areas, the roof system has deteriorated to the point the concrete roof deck is exposed and is beginning to spall. If left untreated, water penetration will increase and the structural integrity of the roof deck and building will be compromised.

Justification: The roof systems on the west section of the main structure has deteriorated to the point that serious damage to the structure will begin to occur if a short period of time. If this project is not undertaken, the future usefulness and long term integrity of the facility is compromised.

Financial Considerations: Funding for this project comes from the SMPC trust funds the City accrues. Currently there is a little over $106,000 in the fund and the City will receive the annual distribution from the endowment later this month of another $11,000.

The remainder needed to finance the project will come from an internal loan from the building fund. The building fund will be repaid over time using the endowment revenues. Although down this year, the annual distribution is typically around $20,000 providing an expected payoff of around six years.

A factor that may significantly influence that payoff is the opportunity to offset some of the cost through the sale of tax credits. Hennessy is listed on the State and National Registers of Historic Places. Because of that distinction, qualified preservation projects are eligible to receive 25% state tax credits, which in this case amount to approximately
$57,000. Those credits are transferable so the City would be able to market the credits and apply the proceeds against the construction costs. If this project is approved staff will submit the appropriate application to the State Historical and Preservation Office for tax credits.

**Purpose/Mission:** A central component of the City’s mission is the preservation of our heritage. Hennessy is the historical icon of St. Mary of the Plains College whose roots in the community trace back all the way to the early 1900’s. Completing this project is entirely consistent with the mission of the City.

**Legal Considerations:** The City has lease agreements with four tenants in the building. Under those leases, the City is required to maintain the physical structure of the building to provide an occupable space. If the decision is to not repair the structure, notice should be given to the tenants to advise them to begin seeking other space.

From: Ken Strobel
Date: December 2, 2010
Subject: General Insurance and Workers Compensation
Agenda Item: New Business

Recommendation: Staff recommends approval of placement of the general insurance and worker’s compensation with Travelers through the local agent Keller Leopold.

Background: The general insurance and workers compensation was put out to bid this year. Three bid packets were provided and two proposals were received. Travelers proposal totaled $621,594 and Public Risk Management proposal totaled $652,061.

Justification: Travelers is the low bidder. Keller Leopold has always provided timely quality service to the City.

Financial Considerations: We have adequate funds available, given that the difference in bids was $26,467. Funds required do not exceeded budgetary amount. The renewal proposal provides coverage for the SEC, ARFF, four new water wells and two new message boards over and above last year.

Purpose/Mission: Protects City assets there by better protecting our community.

Legal Considerations: none
